

ENDURO RACER
Activision 1987

CONTROLS : Keyboard, Cursor, Kempston

AIM : Win a cross-country motorbike race.

GAMEPLAY : At the start of every stage a timer is set to 60 seconds, the limit within which the course must be completed. The other riders and the various obstacles on the road can slow you down or even throw you off your bike. There are five stages:

1. COUNTRY ROAD
2. DESERT
3. SWAMP CAUSEWAY
4. ARTIC
5. SEASIDE

COMMENTS : "A risky Spectrum conversion that has paid off handsomely, providing all the thrills and spills of the original."

RATING : 92% (CRASH #40, May 1987)

NOW : Quite an enjoyable racing game, even if the graphics are a bit crude at times; the original is still in many arcades, which perhaps proves its lastability.

KEYS : Redefinable keys
