Reset computer by holding down CTRL, SHIFT and ESC keys together in that order. Place cassette into the Datacorder. Rewind tape to beginning then press STOP/EJECT once. Press CTRL and small ENTER keys simultaneously then press PLAY followed by any key. This program will take about 8½ minutes to load.

You have been given the job of Head Traffic Controller in London. You must keep all the traffic flowing, allowing cars to pass across the screen. Using the cursor to select which road junction you are controlling, press fire button to change the lights. But beware, if the traffic jams get too long, you lose. Successfully control the traffic and you will graduate to more difficult parts of the City.
