INTRODUCTION

World War II is crippling Europe and the whole world has felt the impact of one man.

The underground resistance movement has arranged to sneak you into a secluded courtyard outside the Fuehrer's Berlin bunker with a gun, ten bullets, and at least one pass to show the guards. A confederate within the bunker has put a briefcase containing a bomb into a closet somewhere on the first floor.

Your mission:

Find the bomb, locate Hitler's private conference room, and leave the bomb, timed to detonate! Then return to the courtyard from which you entered the bunker. Your underground liaison, Hans Undfusse, will meet you there and convey you to safety. Good luck !

Turn on the disk drive. Insert the program disk into the drive. **NEVER INSERT OR REMOVE THE PROGRAM DISK WHEN THE BUSY LIGHT IS ON.** Turn on the computer. When the title page appears, press **START** to display the selection page and your present rank.

Press 0 to select Keyboard controls or press 1 to select Joystick controls. Once you have made your choice, the screen will display the **OPTIONS PAGE**.

OPTIONS PAGE (APPLE, COMMODORE AND ATARI)

After you have selected your game controls, the screen will display the game options:

SKILL LEVEL: RESISTANCE FIGHTER

SELECT OPTION BY LETTER:

- A) START A NEW GAME WITH A NEW BUNKER AND PRESERVE CURRENT GAME LEVEL.
- B) START A NEW GAME WITH A NEW BUNKER AND SET GAME TO LEVEL ONE.
- C) START A NEW GAME WITH SAME BUNKER.

PRESS **RETURN** TO BEGIN GAME

Select the option you want by pressing A, B or C. When you select the

option you want, a box will appear around your selection. Press RETURN to begin the game.

When you select option A, you will play the game at your present rank but with a new bunker. Option B allows you to reset your skill level and change the bunker. Option C allows you to play at the same skill level with the same bunker.

PLAYING THE GAME

You enter the bunker at ground level and proceed down to the third level, where the Fuehrer's conference room is located. You will always start in the same bunker until you destroy the Fuehrer, or until you generate a new bunker. You will always start with a gun, ten bullets, 100 marks and at least one pass.

Each room in the bunker has at least one doorway that leads to an adjoining room, or an elevator that leads to another level of the bunker.

As you roam from room to room, trying to find the closet that contains the briefcase with the bomb and then the Fuehrer's conference room, you will have to show the proper pass to the guard when he demands to see it. If you show the wrong pass he will continue to demand that you show your pass. At this time you can either try again to guess which one he wants or you can bribe him with money. The guards seated at desks can be bribed also, — for information, which they'll give in cryptic phrases whose meaning you must decipher.

You can shoot the guards, but if any other guards see or hear you shooting your gun, they will trip the alarm to alert the whole bunker. If you kill a guard, you can drag the body away, out of the main thoroughfare, to conceal it from the other guards. If you have a dagger you can kill them silently. The guards will set off the alarms if they see a body, or if they are at all suspicious, and unless you can find a way to disable the alarm system, they will all come after you.

When you search a dead guard and find some items that you need, they will automatically be transferred to your supply. However, bullets will be transferred only if the guard's clip contains more bullets than your clip.

Replenish your supply of bullets and acquire money, passes and other supplies by searching guards and opening supply closets. Some of the supply closets are locked, and you'll have to use the number keys on the keyboard to figure out the correct combination. Three single-digit numbers pressed in sequence unlock the door. You'll hear the tumblers click for each number. If you press a wrong number, you must start the combination over. For example, suppose the combination for a closet is

1-7-9. If you press 1, you will hear a click. If the next number you press is anything BUT a 7, you will not hear the click, and you must re-enter the combination from the beginning (i.e., press 1 again). When you hear two clicks in sequence, you have the first two numbers of the combination. Repeat this trial-and-error process until you get all three numbers in sequence. The door will unlock. You can get first aid kits from the closets. You'll find first aid kits useful when you get wounded.

After you find the bomb, you may have to reset the timer before you find the Fuehrer's conference room. To do this, first set the briefcase down (B), then reset the timer (R). Pick up the briefcase again, once the timer has been reset (B).

Your wallet holds a maximum of 100 marks, and you will be limited to a maximum of ten bullets.

- 1 - Passes
- 2 - Doorway
- 3 - Guard
- 4 - Seated Guard
- 5 - Dead Guard
- 6 - You
- 7 - Elevator
- 8 - Closet
- 9 - Alarm
- 10 - Bomb

To show passes, press the corresponding number key when the guard requests it.
