

ATLANTIS

The ancient city of Atlantis, a city beneath the sea, a civilization greater than any the world has ever seen...

One day a low drone is heard throughout the ocean metropolis. The stars go out. Gorgon vessels fill the sky, pounding the city mercilessly. A cry reaches every citizen -

"Defend Atlantis - before it becomes a watery grave!"

Game Objective

Defend Atlantis! Blast Gorgon vessels before they come close enough to demolish Atlantis with the deathray. Score big and you can rebuild a portion of the city the Gorgons have demolished.

Game ends when all six sections of Atlantis have been leveled.

Game Play

You command the two Atlantean sentry posts with your left joystick controller.

- A sentry post guards either side of the city. They cannot be destroyed.
 - To fire from left or right sentry posts, lean joystick left or right.
- Press red firing button.
- Once a sentry post has been selected for fire, it remains selected after the joystick is released.
- To fire from selected sentry post: press red button.
- To select other sentry post: press joystick in that direction.
- The Domed Palace projects a powerful force field that protects the other four Atlantean

installations. As a result, the Gorgon deathray must demolish the dome and then the Palace before the rest of Atlantis becomes vulnerable to attack.

Secret Weapon

When things look desperately bad for the Atlantean defenders, a secret weapon can help even the odds! Destroy a sky full of Gorgon ships by unleashing the Blitz Bomb!

- To fire Blitz Bomb: push joystick forward.
 - Gorgon vessels will instantly disintegrate!

Don't be impulsive! You receive only one Blitz Bomb per wave. Listen for the 8 beeps that tell you when a wave ends.

Scoring

You score each time you vaporize a Gorgon vessel. You must hit the ship directly to score.

Destroy a Gorgon ship: 250 points.

- At the end of a wave, you receive 1000 points for each part of Atlantis that survives the Gorgon assault.
- If the Gorgon deathray damages or destroys the Domed Palace, a new one can replace it at the end of the current wave. You earn a bonus Domed Palace:

At every 10,000 point mark you reach up to 100,000

AND THEN

At every 100,000 point mark up to 1,000,000

A damaged or destroyed Domed Palace is only replaced at the end of a wave. Should the entire city be leveled before the end of a wave, no new Domed Palace appears. The game ends.

- You earn no points for Gorgon ships destroyed with the Blitz Bomb.
