

PROHIBITION

The police can no longer face up to the Criminal Gangs which reign in the poorer New York districts....

A mercenary like yourself is what they need! The police are ready to pay a lot of money for successful people - like you.

Your assignment is to eliminate all the hired killers. But be careful! They'll defend themselves to the death....

The number of killers doesn't worry you. We expect you to stand up to them, but watch out: they hold hostages...yes we agree, it is a sickening method....

This time it will be necessary to use all your skill so as to avoid hitting innocent victims....

LOADING AND START-UP

Before use, ensure that all the parts are properly connected.

IBM PC & COMPATIBLES

Load D.O.S.

Insert the PROHIBITION disc in the drive.

Type PROH1 and press RETURN

Select the language you speak.

Choose the relevant graphic mode from the menu.

Then, select whether to play with a joystick or a keyboard (if keyboard, state which type).

ATARI ST

Ensure that your computer has been switched off for at least sixty seconds immediately prior to loading the game. Switch on your machine and insert the game disc in drive zero (all other disc drives, printers, cartridges etc should have been removed). When the desktop appears double click on the PROHIBITION icon, the game should now load automatically. If the game fails to load on the first attempt, leave the disc in the drive and press the reset button.

IMPORTANT: PROHIBITION will record high scores to the game disc so do not write protect the disc.

COMMANDS

On IBM PC & Compatibles

Using a joystick;

To move the gunsight, move the handle of the joystick in the desired direction. To shoot, press the FIRE button.

Using the keyboard;

To move the gunsight, use the cursor keys. To shoot, press the SPACEBAR.

To dodge the enemy bullets, press SHIFT if using the keyboard and any key if using a joystick.

On ATARI ST

To use a mouse click on the 'Souris' option, alternatively click on the 'Clavier' option to select cursor keyboard controls. To start the game click on 'Jeu'.

When using the mouse option the left button acts as the trigger on your machine gun and the right button to dodge incoming bullets.

DODGE

The only means of protection against the enemy bullets is the dodge key.

When you press it, you are protected from the bullets...

But you can't dodge indefinitely!

Each completed contract brings you in Dollars and you can go onto a higher level - there are other killers who are faster!
