About Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these “photosensitive epileptic seizures” while watching video games.

These seizures may have a variety of symptoms including: lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures.

The risk of photosensitive epileptic seizures may be reduced by:

- sitting farther from the television screen,
- using a smaller television screen,
- playing in a well-lit room, and
- not playing when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

Avoid Damage to Your Television

Do not use with certain televisions. Some televisions, especially front- or rear-projection types, can be damaged if any video games, including Xbox games, are played on them. Static images presented during the normal course of game play may “burn in” to the screen, causing a permanent shadow of the static image to appear at all times, even when video games are not being played. Similar damage may occur from static images created when placing a video game on hold or pause. Consult your television owner’s manual to determine if video games can be safely played on your set. If you are unable to find this information in the owner’s manual, contact your television dealer or the manufacturer to determine if video games can be played on your set.

SWINGING

If you picked **Easy Swinging** at the beginning of the game, just pull the **right trigger** to shoot a web, and hold on to the **right trigger** as long as you want to swing. Let go of the **right trigger** to release your web and sail through the air. Shoot another web by pulling the **right trigger** again.

Normal Swinging gives you more precise control over Spider-Man. Pull the **right trigger** to shoot a web and begin to swing. While swinging, you can pull the **right trigger** again to immediately shoot another web. However, you can control your movement better if you first press the **A** button to jump off your web. After sailing through the air for a while, pull the **right trigger** again to start another web. (See page 16 for more tips on Normal Swinging.)

For best results under Normal Swinging, you need to master swing jumping. First do a charged jump off the ground so you can get some air before you begin. Then pull the **right trigger** to shoot a web and begin to swing. As soon as you begin swinging, press and hold the **A** button to charge your jump meter. When it's completely charged and you're moving in the direction you want to go, let go of the **A** button to do a charged jump off your web. Fly through the air for a second or two, steering with the **left thumbstick**. Then pull the **right trigger** again to shoot your next web, and repeat. You're swing jumping!

To swing jump even faster, pull the **left trigger** at the bottom of your swing for a turbo boost forward!

In Normal Swinging, you can stop yourself in midair by shooting a second web and hanging from two web lines at once. Pull the **right trigger** to swing, as usual. While swinging, pull and hold the **right trigger** to shoot a second web.

Whenever you pull the **right trigger** to swing, whether you're in Easy Swinging or Normal Swinging, you'll shoot a web at a good target in the direction that you're pointing the

left thumbstick. If you want your web to stick to the building ahead of you and to the left, just move the **left thumbstick** forward and to the left while pulling the **right trigger**.

If you want to change from Easy Swinging to Normal Swinging or vice versa, go to the Options screen of the Pause Menu.

WEB ATTACKS

As the amazing Spider-Man, you have a variety of web-based attacks at your disposal. See page 11 for a complete list of combos.

Web Tie: The classic Spider-Man action that allows you to tie up your foes. Hold down the **Y** button to tie up enemies so they cannot attack Spidey. Enemies eventually work free of the webbing, so be sure to keep an eye out so you don't get surprised. Some powerful enemies can dodge out of the way of your webbing and some are completely invulnerable to it.

Impact Webbing: The web ball can be very helpful when fighting a group of enemies. Pull and hold the **left trigger** and press the **Y** button to shoot a web ball at your enemy. They'll be momentarily entangled so you can take care of another enemy. Impact webbing is harder to dodge than a web tie.

Web Yank: Need to deal with an enemy who wants to stay at long range? Try the **Y** button + back on the **left thumbstick** to bring an opponent up close and personal where Spidey can deal with them properly. Press the **Y** button and move the **left thumbstick** in different directions to try different yanks.

See pages 11 and 12 for examples of Web Attacks.

COMBAT SYSTEM

Combos

Spider-Man 2™ has an open-ended combat system that lets you press Attack, Web and Jump commands in different sequences to perform combos that capitalize on Spider-Man's agility and quickness.

Dodge Button: This button comes in really handy when Spidey is being shot at or attacked by a bunch of thugs. When attacked, your Spidey sense tingles and Spidey's head flashes. Press the **B** button when Spidey's head lights up and he will dodge the attack. From the dodge you can start a counter attack.

Purchase New Combos: There are multiple Upgrade Stores in the city where Spider-Man can go to upgrade his special abilities like swinging, combat and web attacks.

Air Juggle Combat: You'll often knock enemies up into the air. To Air Juggle a bad guy, just launch one of them into the air and then charge jump (hold down the **A** button to charge up and then release) to catch up to the enemy. While in the air, you can begin to punch. Skilled players can use punches, kicks, jumps and web yanks to stay in the air while defeating all the bad guys.

Combat Combos

Some of these combos will work right from the beginning of the game, and others you have to purchase from the Spidey Stores in the city. Make sure to rack up those Hero Points so you can get more combos—including special combos not listed here!

GENERAL INFO

- *Meters*

The *Health Meter* decreases when you get hurt. To increase your health, pick up the health icon that appears after stopping various crimes in the city.

The *Hero Meter* shows how long you can keep Spider Reflexes going (press ↑ on the directional pad). You can fill up the Hero Meter by doing stylish Spider-Man moves like acrobatic swinging moves or dodging attacks.

The *Jump Meter* shows how much you have charged your jump. It increases as long as you press the **A** button, indicating how high you'll jump when you let go.

- *Jump While You Swing*

While swinging, hold down the **A** button to charge up your jump meter. At the end of your swing, release the **A** button. This allows Spider-Man to get higher and gain momentum. See pages 8 and 16 for more swinging tips.

- *Swing Boost*

When swinging, pull the **left trigger** to get a swing speed boost. If you pull the **left trigger** at the bottom of your swing, you'll get the maximum boost.

- *Citizens in Distress Missions*

While swinging through the city you'll see civilians with a green **?** icon over their heads. You can choose to approach them and begin a mission. First, walk up to the civilian, face them and press the **X** button. They'll tell you that someone's being attacked, robbed or just needs help. Completing these missions earns Hero Points that you can spend in one of the Upgrade Stores.

- *Random Crimes*

Sometimes while swinging around the city you'll notice random crimes occurring. You can choose to intervene and stop the crime or continue on your way if you're too busy. It's not mandatory, but stopping these crimes earns Hero Points.

- *Zoom Map*

If you're outdoors, you can press the **BACK** button to show the zoom map. (The game will remain paused for as long as you want to look at the map.) Then use the following controls:

Control	Action
directional pad or left thumbstick	Move the map around
Y button	Zoom out so you can see more area
A button	Zoom in so you can see more detail
right and left triggers	Show challenges, hint markers or key locations nearby
B or BACK buttons	Leave the zoom map

- *Hero Points*

Spider-Man can earn Hero Points by doing a number of heroic things: stopping petty crimes, saving helpless civilians, beating up the super villains and many more... Use the Hero Points you earn to upgrade Spider-Man's combat, webbing and swinging abilities in one of the Upgrade Stores in the city.

GAMEPLAY TIPS

1. Normal Swinging: You can master swing jumping if you get the rhythm. While moving the left thumbstick forward, pull the **right trigger**. Then hold the **A** button for about 2 seconds to charge your jump meter until you're about two-thirds of the way through your swing and moving forward quickly. Let go of the **A** button to do a charged jump. Sail through the air for a couple seconds, then repeat.
2. Normal Swinging: If you're having trouble gaining altitude, do the above steps for swing jumping, but wait an extra second before you let go of the **A** button to do your charged jump. Spider-Man will leap higher in the air, but not as far forward. Then after a second, pull the **right trigger** again to keep swinging.
3. Whenever you pull the **right trigger**, Spider-Man tries to shoot a web at whatever object you're pointing at with the **left thumbstick**. This might be a building, a tree or even a helicopter. So if you're swinging and you want to take a left turn, try shooting a web at the building on your left so your momentum will carry you in that direction. If you keep hitting the ground right after you start to swing, try doing a charged jump from the ground before you pull the **right trigger** to swing for the first time.
4. For fast swinging, master the speed boost. Pull the **left trigger** at the bottom of your swing, then do a charged jump and go straight. Feel the burn.
5. Visit the Upgrade Stores often for upgrades to your swing speed and more combos for combat.
6. Try not to get hit. Dodge incoming attacks and, if your timing is right, counter attack!
7. Many enemies have defenses against some of your attacks. If thugs are blocking all your normal attacks, try web-tying them (hold down the **Y** button), or start a combo with the web button (the **Y** button). If they're dodging your webbing, try out some aerial combos or impact webbing. And don't forget, there's always Spider Reflexes!
8. If you get hurled through the air by an explosion or a hard hit, rapidly press any button to shake it off and regain control.
9. If a mission seems too hard, choose **Restart Chapter**, save up some Hero Points, buy upgrades from the Upgrade Store and try it again!
10. Not sure what to do? Check your To Do list in the Pause Menu by pressing the **START** button.
11. Press the **BACK** button to view the zoom-out map to plan your route when you need to get through the city quickly. It lets you see where you need to go. You can take your sweet time and the best part is you can zoom all the way out to over a mile above the city!
12. Master web-zipping, wall-running and springing off buildings to take the swinging experience to another level.
13. Be sure to save the game before you turn off your Xbox console or you'll lose your progress. Press the **START** button, then pull the right trigger to get to the Save/Load screen, then choose **Save Game**.
14. Have fun!

SOFTWARE LICENSE AGREEMENT

USE OF THIS PROGRAM IS SUBJECT TO THE SOFTWARE LICENSE TERMS SET FORTH BELOW. "PROGRAM" INCLUDES THE SOFTWARE INCLUDED WITH THIS AGREEMENT, THE ASSOCIATED MEDIA, ANY PRINTED MATERIALS, AND ANY ON-LINE OR ELECTRONIC DOCUMENTATION, AND ANY AND ALL COPIES AND DERIVATIVE WORKS OF SUCH SOFTWARE AND MATERIALS. BY OPENING THIS PACKAGE, AND/OR USING THE PROGRAM, YOU ACCEPT THE TERMS OF THIS LICENSE WITH ACTIVISION, INC. ("ACTIVISION").

LIMITED USE LICENSE. Activision grants you the non-exclusive, non-transferable, limited right and license to use one copy of this Program solely and exclusively for your personal use. All rights not specifically granted under this Agreement are reserved by Activision. This Program is licensed, not sold. Your license confers no title or ownership in this Program and should not be construed as a sale of any rights in this Program.

OWNERSHIP. All title, ownership rights and intellectual property rights in and to this Program and any and all copies thereof (including but not limited to any titles, computer code, themes, objects, characters, character names, stories, dialog, catch phrases, locations, concepts, artwork, animation, sounds, musical compositions, audio-visual effects, methods of operation, moral rights, and any related documentation, incorporated into this Program) are owned by Activision or its licensors. This Program is protected by the copyright laws of the United States, international copyright treaties and conventions and other laws. This Program contains certain licensed materials and Activision's licensors may protect their rights in the event of any violation of this Agreement.

YOU SHALL NOT:

- Exploit this Program or any of its parts commercially, including but not limited to use at a cyber cafe, computer gaming center or any other location-based site. Activision may offer a separate Site License Agreement to permit you to make this Program available for commercial use; see the contact information below.
- Sell, rent, lease, license, distribute or otherwise transfer this Program, or any copies of this Program, without the express prior written consent of Activision.
- Reverse engineer, derive source code, modify, decompile, disassemble, or create derivative works of this Program, in whole or in part.
- Remove, disable or circumvent any proprietary notices or labels contained on or within the Program.
- Export or re-export this Program or any copy or adaptation in violation of any applicable laws or regulations.

LIMITED WARRANTY. Activision warrants to the original consumer purchaser of this Program that the recording medium on which the Program is recorded will be free from defects in material and workmanship for 90 days from the date of purchase. If the recording medium is found defective within 90 days of original purchase, Activision agrees to replace, free of charge, any product discovered to be defective within such period upon its receipt of the Product, postage paid, with proof of the date of purchase, as long as the Program is still being manufactured by Activision. In the event that the Program is no longer available, Activision retains the right to substitute a similar program of equal or greater value. This warranty is limited to the recording medium containing the Program as originally provided by Activision and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

EXCEPT AS SET FORTH ABOVE, THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY KIND SHALL BE BINDING ON OR OBLIGATE ACTIVISION.

When returning the Program for warranty replacement please send the original product disks only in protective packaging and include: (1) a photocopy of your dated sales receipt; (2) your name and return address typed or clearly printed; (3) a brief note describing the defect, the problem(s) you are encountering and the system on which you are running the Program; (4) if you are returning the Program after the 90-day warranty period, but within one year after the date of purchase, please include check or money order for \$20 U.S. currency per game disc replacement. Note: Certified mail recommended.

LIMITATION ON DAMAGES. IN NO EVENT WILL ACTIVISION BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THE PROGRAM, INCLUDING DAMAGES TO PROPERTY, LOSS OF GOODWILL, COMPUTER FAILURE OR MALFUNCTION AND, TO THE EXTENT PERMITTED BY LAW, DAMAGES FOR PERSONAL INJURIES, EVEN IF ACTIVISION HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ACTIVISION'S LIABILITY SHALL NOT EXCEED THE ACTUAL PRICE PAID FOR THE LICENSE TO USE THIS PROGRAM. SOME STATES/COUNTRIES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS AND/OR THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES. SO THE ABOVE LIMITATIONS AND/OR EXCLUSION OR LIMITATION OF LIABILITY MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION.

TERMINATION. Without prejudice to any other rights of Activision, this Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of this Program and all of its component parts.

U.S. GOVERNMENT RESTRICTED RIGHTS. The Program and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software." Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor/Manufacturer is Activision, Inc., 3100 Ocean Park Boulevard, Santa Monica, California 90405.

INJUNCTION. Because Activision would be irreparably damaged if the terms of this Agreement were not specifically enforced, you agree that Activision shall be entitled, without bond, other security or proof of damages, to appropriate equitable remedies with respect to breaches of this Agreement, in addition to such other remedies as Activision may otherwise have under applicable laws.

INDEMNITY. You agree to indemnify, defend and hold Activision, its partners, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Product pursuant to the terms of this Agreement.

MISCELLANEOUS. This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under California law as such law is applied to agreements between California residents entered into and to be performed within California, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in Los Angeles, California.

If you have any questions concerning this license, you may contact Activision at 3100 Ocean Park Boulevard, Santa Monica, California 90405, (310) 255-2000, Attn. Business and Legal Affairs, legal@activision.com.
