SCROOGE McDUCK'S TREASURE HUNT

"Squack! Five lost treasures? And they don't belong to me? Where's my helicopter? I'm going to find those priceless goodies! Even if it means flying to the moon! And I'm going to bring them back!"

And that's how Uncle Scrooge McDuck, the world's stingiest millionaire, gets started on his latest adventure. It's a good thing Huey, Dewey, Louie, and Webby tag along to help him. Uncle Scrooge has never faced anything like what he's in for now!

CONTROLLING UNCLE SCROOGE (if you can!)

Move left or right - Press the control pad **LEFT** or **RIGHT**.

Climb up a rope, chain or vine - Press the control pad **UP** when you touch the rope.

Climb down - Press the control pad **DOWN**.

Jump - Press button **A**. The longer you hold down the button, the higher you'll jump.

Pogo jump - Press button **A**. While in midair, quickly press and hold button **B**. You'll Pogo-jump for as long as you hold down the button.

Swing your cane - Press the control pad in the direction you want to swing. Then press button **B**.

PLAYING THE GAME

Uncle Scrooge starts every game with 3 lives. He has only a short time to find the Five Lost Treasures. And it won't be easy! All kinds of villains, ruffians, and troublemakers are just waiting for someone they can push around.

Jump on your foes to do them in. Break open rocks and treasure chests to see what they hide. If a jewel appears, run over quickly to grab it. Sometimes an obstacle will slide away or fly up in the air when you swing at it. Figure out how to use this to knock out enemies or get unreachable items.

When you've collected all the treasures in a land, your biggest and worst enemy appears. Fight hard, and try to stay alive. If you can get rid of him, you've cleared that land and you don't have to come back! If Scrooge loses all his lives, or runs out of time, the game is over. But if he finds the Five Lost Treasures before any of that happens, he wins, and becomes even richer than before!

THE SCORE PANEL

Watch your Score Panel at the top of the screen to see how you're doing.

Total - The amount of treasure you've collected and stored in the Bank.

Player - The number of lives you have left.

Hit Points - How much strength you have left before you lose a life. You get 3 hit points per life. How strong you are depends on the game level you're playing:

Easy - You can take 2 enemy punches per hit point.

Normal - You can take 1 enemy punch per hit point.

Difficult - You can lose hit points fast. Don't let your foes even get close!

Time - How much time you have left to collect all the treasures. You start every land with 500 seconds.

THE BANK

The game starts from the Duckburg Bank, where you saw the Land Chart and chose an area to search. When you run into Launchpad, answer "Yes" to his question and he'll take you back to the Bank. Once there, deposit your treasures in the safe. The amount you've gained so far will show up on the Score Panel. Then, choose another land to search. Launchpad can be used once in each land. Also, you cannot return to a land that you've already cleared of the final treasure.

TREASURE LANDS

The Amazon - Explore the ruins of the Incan Empire. Shimmy up and down vines, knock out the spider with a rock, and watch out for traps! The Sceptre of the Incan King is the Lost Treasure of this land.

continued...

TREASURE LANDS (cont.)

Transylvania - De-haunt a houseful of monsters. Use the mirrors in this spooky abode to transport yourself to other rooms. Huey's message leads you to a special room. Find another Lost Treasure – the Coin of the Lost Realm.

African Mines - You must obtain the skeleton key from a different land to venture into the underground mines. Hope you're not afraid of slugs! Don't leave without the Giant Diamond of the Inner-Earth.

The Himalayas - Every step is danger! If you hop in the snow, you might get stuck. Or you might take a non-stop slide on the ice. Look for the Lost Crown of Genghis Khan.

The Moon - Far out! Find the remote controller to summon Gizmo-Duck. He knows how to enter the secret room. The Green Cheese of Longevity is the Lost Treasure on this satellite.

The Last Battle - Once you have all Five Lost Treasures, your worst enemy tries to take them all away. Put him out of business and you win the game!

LIFE SAVERS

Diamonds - The small diamonds are worth \$2,000. The large ones are worth \$10,000. When you find 'em, grab 'em quick – before they twinkle out of sight.

Magic Coin - Makes you invulnerable for a short time.

Ice Cream - Restores 1 Hit Point.

Cake - Restores all Hit Points.

Scrooge Doll - You gain another life.

Skeleton Key - Find this in another land so you can enter the African Mines.

TREASURE HUNTING HINTS

- If Uncle Scrooge is stopped on a rope, vine or chain and you try to jump, he'll begin falling. Press **UP** on the control pad to stop the fall and climb back up.
- Pogo-jump to move safely over dangerous ground. Remember: press the control pad **LEFT** or **RIGHT** for greater distance while Pogo-ing.
- Figure out the mazes in each land, and where the bottomless pitfalls are. Doing this will save you time and lives.
- Climb as high as you can while searching. Remember: a secret attic can hide treasures, too.
- When Uncle Scrooge is damaged, he can't be hurt again for a second or two. Take advantage of this time to get past tough opponents.
- Practice until you become fast and accurate. Then practice, practice, practice some more.
