## 3. HOW TO PLAY A 2-PLAYER GAME

"BASEBALL" can be played by 2 people by connecting the units with a Video Link™ cable.

You need:

- a) 2 GAME BOY units
- b) 2 BASEBALL Game Paks
- c) 1 Video Link™ cable

1. Connect the Video Link™ cable as shown in diagram. After checking that the Game Paks are set properly, turn the power switch of both units ON.
2. Check that both units display the title screen, then one of the two players selects "2-PLAYER".
3. For details on operation after this see "2. HOW TO PLAY THE GAME."

Note: If (1) is not done properly, or if cable is disconnected or re-plugged during the game, the game will not function. In this case, turn OFF both units' power switches then restart procedures from (1) above.

#### 4. SPECIAL HINTS

In this game "auto-defense" is applied for both infielders and outfielders, in which players chase a ball without  $\oplus$  Control Pad operation. A ball that "auto-defense" cannot catch, can be caught by operating the buttons. Practice until you get the knack of doing this.

Besides this, a sacrifice bunt can be made by combining a bunt play and stealing a base. A squeeze play is also possible.

#### 5. SPECIAL RULES OF "BASEBALL"

\*When playing a 1-PLAYER game, you cannot steal a base, until the pitcher goes into his windup.

\*When the player is walked or hit by a bean ball and a runner steals a base, the steal is invalid.

\*When the difference in score is more than 10 points, the game is called. The game is terminated without continuing into the next inning.

\*Extra innings go to the 10th inning. If both teams are tied at that time, the game is declared a draw.

#### 6. DIRECTORY OF PLAYERS

Nintendo "Baseball" has a total of 4 teams, 2 teams in the USA MODE and JPN MODE respectively.

\*USA MODE W-BEARS→first batting team

R-EAGLES→first fielding team

\*JPN MODE W-BEARS→first batting team

R-EAGLES→first fielding team

Compared to JPN MODE pitchers, USA MODE pitchers are programmed to throw faster with more stamina, but have difficulties throwing a changeup pitch. There are more left-handed players in the USA MODE than in the JPN MODE. Try either MODE you like. Now let's introduce all the players of the 4 teams. Remember this information as you play.

##### ■ How to view the table

\*Batting.....A-E ..A has the highest chance to get a hit, E the lowest.

\*Skill.....A-C. Indicates chance of a successful bunt.

\*Stamina.....A-C A is tough, C tires out easily.

\*Speed.....A-C A indicates a pitcher who throws, on the average, the fastest balls.

\*Changeup...A-C indicates sharpness of curve and screwball

\*All pitchers rank E in batting, A in skill and have a 150 AVE.
