## A D V I S O R Y

A very small portion of the population may experience epileptic seizures when viewing certain kinds of flashing lights or patterns that are commonly present in our daily environment. These persons may experience seizures while watching some kinds of television pictures or playing certain video games including games played on the Game Boy Compact Video Game System. Players who have not had any previous seizures may nonetheless have an undetected epileptic condition. Consult your physician before playing video games if you have any epileptic condition. Consult your physician if you experience any of the following symptoms while playing video games: altered vision, muscle twitching, other involuntary movements, loss of awareness of your surroundings, mental confusion and / or convulsions.

## GAME STORY

The cave boy with the head of stone is back in this new chapter of his amazing adventures! Join Bonk as he travels through Dinosaur Land in search of the beautiful Moon Princess!

But it looks like Bonk's old enemy King Drool is ready to take over! He's captured the princess and demands to rule Dinosaur Land. Now Bonk has to use his head (literally!), to blast King Drool's fools off of the map and bring peace back to the realm.

Explore the wild world of our hard-headed kid and always keep an eye out for hidden items and bonus zones!

## HOW TO PLAY

Press the Start button while you are at the title screen. A general map appears and the game begins.

A small score panel appears at the bottom of the game screen. The items shown (in order from left to right) are:

**Hearts** Bonk's energy level. Lose all of the hearts and you will lose a life.

**Bonk's face** How many lives you have left. Lose of all your lives and the game is over.

**Number** Player's score.

Note: you are awarded a new life when your score reaches 10,000. You will win another life when you reach 20,000 points. After that, you'll gain a life for every 20,000 points you acquire.

## CONTROLLING BONK

**Control Pad** Moves Bonk in all directions.

**A Button** Use to jump or climb walls.

**B Button** Use to head-butt (Bonking), and other attacks when power is increased.

**Start Button** Use to start the game.

**Select Button** Use to pause game.

## SPECIAL TECHNIQUES

These tricks will make it much easier to complete this game, so be sure to learn these moves before you start bashing your head against a wall.

**Mid-air Spin:** Jump and hold down the **B Button** simultaneously. This increases the distance that Bonk jumps. This also makes the power of your "Bonk" twice as strong!

**Wall-Bite:** If there's a vertical wall too high to jump over, try jumping against it. If Bonk latches onto it with his big teeth, press the **A Button** to start climbing over the barrier!

**Swimming:** When Bonk is in the water, you can use the control pad to swim. Rise to the surface by using the **A Button**.

## SPECIAL TECHNIQUES (Cont.)

**Tree Climbing:** Use the **A Button** to climb trees (like the Wall-Bite). The control pad allows you to move across the trunks from left to right.

**Waterfall Climbing:** When you are faced with a waterfall, you can climb it by using a combination of pressing the **A Button** and the control pad. The **A Button** speeds you up here too!

**Now for the fun one...**

**THE GRAND BONK:** A variation on the Mid-air Spin. When you have powered up, turn around in mid-air and bonk the ground. The ground will shake and any opponents on the screen will suffer major damage!

## POWER-UP ITEMS

- Hearts** The life gauge increases by one heart.
- Fruit** The life gauge increases by about 1/5 hearts.
- Big Hearts** The life gauge increases by three hearts.
- Crystal Heart** The maximum level of your life gauge increases by one whole heart.\*
- Small Meat** You experience a power-up.
- Big Meat** Experiences a power-up twice as big as the one a small meat provides. You'll also be the Invisible screamer for 10 seconds!
- 1 Up** Looks like a little Bonk. It rewards you with extra life.

\* There is only one Crystal Heart. It's hidden in one of the latter stages in the game - don't miss it!

## POWER-UP EFFECTS

Eating meat allows you to power-up Bonk. There are two phases to this effect:

**Rock-Head Bonk:** Not that the little dude doesn't already have a head as hard as stone, but this phase actually turns his head into granite! This not only doubles his attack power, but wait until you see the Grand Bonks that this effect causes!

**Invisible Screamer:** This ultimate Bonk has one thing you've never seen on this guy before - Hair. His attack power is tripled and no one can beat his A Button screams!

## POWERFUL FLOWERS

The Bani-bana flowers are scattered throughout Dinosaur Land. They offer Bonk a variety of different options, items and bounce effects:

1. White with pale grey petals: A jumping Bani-bana. This variety allows Bonk to soar into the skies with a trampoline style jump. He can jump higher with one of these than by himself.
2. White with white petals: A power-up Bani-bana. Jump on one of these to collect a power-up item.
3. Grey with grey petals: A Meat Bani-bana. Jump on one of these to collect a piece of meat. Hint: The Crystal Heart is hidden in one of these Bani-bana.

## GAMES STAGES

The prehistoric world of Dinosaur Land has a variety of backgrounds. Danger lurks behind every turn — be sure to use your noggin' as you plow through the primitive waste lands. Gigantic flower beds, hot springs, waterfalls, whirlpools await Bonk as he searches for the Moon Princess.

Look for the secret passages to the Bonus Rounds! Touch a miniflower during a normal stage and get whisked off to a Bonus Round. There are three different bonus stages; Wall-biting, Waterfall climbing and the Free-fall item Catching!

## BOSSES BEWARE!

Watch out for Eggbert's beak!

Spin Lizzy really kicks up her heels!

How do you top this!
