## SKULL CROSS

The defeat and subsequent disappearance of the Mad Gear Gang has led to utter chaos in Metro City. A new uprising of vandalism, terrorism and death has spawned out of the remains of Mad Gear. This small group known only as "Skull Cross" has quickly grown and claims responsibility for the constant looting, arson and armed robbery. The government of Metro City is at a complete loss.

Yet Metro City's mayor, Mike Haggar, has hope for a new future. Guy has returned to Metro City after several months of training and is ready to put his new skills to use. And it looks as if he will get his chance! An explosion rings through the streets right outside the government building.

Before either can react, the door bursts open, revealing Lucia, Cody's old friend, in a state of shock.

"We must act," she shouts. "Metro City is under attack! Skull Cross is loose, and they've got something up their sleeves. I can't tell what it is though."

"I'm on it," Guy replies. "Let's go Haggar!"

But before any of them can move, a mysterious man appears in the doorway. He is tall and muscular, with an aura of confidence surrounding him.

"I can help," he says. "My name is Dean. I know Skull Cross inside-and-out, and I hate them more than anything. My past means nothing to me now. I can help you, and you can help me. We must go!"

All four fighters vow to bring Skull Cross down. It will be a tough assignment, and may even be their final fight!

## PROFILE OF MIKE HAGGAR

**Weight:** 269 lbs.  
**Hobby:** Politics

Mike Haggar is a former wrestler and a champion street fighter. Haggar was instrumental in the defeat of the Mad Gear Gang. He has been the most popular mayor in the previously crime-ridden capital of the world, Metro City, for many years and seems to become more powerful with age.

Haggar may be a bit slow but his devastating wrestling skills more than make up for a lack of speed. Once he grabs an opponent, he will apply a deadly wrestling move that causes the ground to rumble.

## PROFILE OF LUCIA

**Hobby:** Cooking (even though she's not too good)

Even though she is currently a detective in Metro City's Special Crimes Unit, Lucia did not join Mike Hagggar's operation for that reason. When she became aware of his plan, Lucia jumped at the chance to re-pay Hagggar after he helped clear her of a corruption charge.

Lucia's awesome leg strength makes her kicks lethal. Her motto is to kick first then ask questions later, and usually her opponents don't respond to her questions. She has an extremely long range of movement in fight, so she can protect herself well by standing clear of her opponents. She loves to use her Tornado Spinner, a move she picked up on the streets.

A former street fighter with a thorough knowledge of the Skull Cross gang's operation. A very mysterious man, and rumors on the street say he is not completely human. While many believe him to be somehow robotic, he always carries a small picture of his family wherever he goes.

There is something mechanical about Dean and his ability to summon and accumulate supernatural powers to his fist. He is very quick, has an extended reach and uses his size to overpower enemy. His most devastating attacks will punish his foe with electrifying effects.

## BOSS CHARACTERS

**Dave**- Once a faithful policeman for Haggar's Metro City force, Dave has changed alliances and now is a major ally for Skull Cross. Even though he is quite heavy, his quickness is deceiving. He loves to utilize his weight and crush enemies, so watch out for his giant jump tactic. He is most vulnerable when he falls to the ground.

**Call Man**- Skull Cross' middle-class big shot. He's the guy with the biggest chip on his shoulder. Coleman hates all enforcement types, and especially Mayor Haggar. His main purpose for Skull Cross is as an informant, but he has strong street fighting skills as well. He is big and strong, so keep moving and don't get grabbed by him. You'll be sorry!

**Caine**- Nicknamed "The Destroyer." That says it all. He is considered by far the most dangerous fighter in Skull Cross. Caine's odd movements coupled with his long reach make him a brutal opponent. And throw in his skillful use of a wrench, and you've got an opponent that is hard to get close to. If there is any weakness to Caine, it is his lack of depth perception. Try jumping around and keep moving. He might have trouble finding you!

### Bonus Stages

At set points throughout your street battle, bonus stages will appear, allowing you a chance to power-up and build your health. Punch, kick and attack wherever and however you can. Here is a short description of some bonus stages:

- 1 Skull Cross henchmen attack with a bulldozer. The vulnerable point of the bulldozer is the cockpit, so do what you can to place all your attacks there.
- 2 After the factory scene, many drums will roll throughout the room right at you. Stick to the right to avoid the drums and attack the control panel.

## FIGHTING TACTICS

1. Wait until your strength meter is low before you pick up any food.
2. Try not to stand toe-to-toe with any of the bosses. Instead, try the hit and run strategy.
3. There's a certain amount of hits you can apply to an enemy before you knock them down. Find deadly combinations of hits for maximum damage. Remember to rapidly hit the Y button for combination attacks.
4. Your enemies are as tough as you are. In some cases, they are even tougher. It takes quite a number of hits before you knock them out, so do not underestimate the power of an enemy you have knocked down several times.
5. Break open as many barrels as you can to find power-up items and bonus items.
6. Use your characters' "Mega Crush" move sparingly. Whenever the attack connects on your opponent, you lose health. This move is meant to get out of tight spots only.
7. Watch your "SUPER" move meter closely. Be ready to let your "SUPER" move rip right as the meter fills completely. This is a great tactic to defeat your enemies.
8. Stay aware of multiple pathways. At certain points in the game, you will have a choice of directions to travel. Sometimes, you may be able to break open this other pathway. Press control pad toward open area to enter. Some areas may be more difficult than others. Some may even let you bypass the boss. Keep on your toes!
