# CHUCK ROCK™

**Holy Neanderthal!** There's big trouble in the Rock cavehold. Chubby-hubby Chuck was spending a typical Sunday afternoon guzzling down a case of Boulder root beer in front of the boob-tube when all of a sudden he heard his lovely Ophelia grunt for help. Lifting his great gut off the stone couch, Chuck ran to the garden to find his curvaceous cave-babe nowhere in sight. She had been kidnapped. And judging from the size of the foot prints on the terra firma, Ophelia's old flame, gruesome Gary Gritter, is the Cro-magnon responsible for this prehistoric tragedy.

Needless to say, Chuck has gone ape! And he's got a brontosaurus-sized bone to pick with the pebble-chewing wife-snatcher.

But first, in order to reach his B.C. bride, Chuck must belly-butt his way through five wild and woolly levels. He's got to tough some treacherous terrain and brave some savage creatures . . . survive another Ice Age . . . bob and body-surf through a dangerous water world . . . and face the terrors of a dinosaur boneyard.

O.K. Chuck. **Let's rock!!!**

## Scoring and Surviving Back in Time

The more stuff Chuck picks up along the way, the more points you score—and the closer Chuck gets to finding his fair Ophelia.

## Beware!

When Chuck takes a blow that costs him energy, his eyes will bug out and he will stick his thick tongue straight out at you. When he loses energy or a life, you'll know it.

For a big man who's taken one too many boulders to the head, Chuck is light on his feet. He can walk, jump, swim, even lift and throw heavy rocks to crush on-rushing dinosaurs. He can even skip over stones to get to some very strange places. But remember, Chuck can't carry more than one rock at a time and he can't jump very well when he's weighed down by a big stone.

Chuck can also lay a pretty-hefty jump-kick on anybody or anything that gets between him and Ophelia. And when it comes to those pesky flying creatures, Chuck can jump high into the air and kick them out of the sky.

And then there's Chuck's far-from-secret weapon—his big belly. Chuck uses his gargantuan gut to butt and destroy his enemies.

# Stages of the Game

Chuck has to make it through five levels of play to get to his lovely Ophelia. Once you survive one level, you move on to the next. But each level has several stages—and its own leery “Level Boss”! Here's a rundown of some of the challenges you'll encounter at each stage, and some tips for helping Chuck find his curvaceous cave-mate.

## THE LAW OF THE JUNGLE

Level: 1  
Number of Stages: 8

Chuck can use the alligators to catapult himself by walking on one end and bouncing a rock on the other. Try it. But beware of the “Level Boss”. You can't miss him. He's a big green triceratops with a white band on his butt.

## IF YOU CAN'T TAKE THE HEAT, GET OUT OF THE VOLCANO

Level: 2  
Number of Stages: 6

The guts of this fiery mountain are vast and dangerous. Chuck must jump on the elevators to get around. Don't be alarmed when Chuck sometimes freezes in his tracks—he's not cold—he's just terrified! Look out! The "Level Boss" here is a saber-toothed tiger who's permanently hot under the collar.

16

## IN THE (PRIMORDIAL) SOUP

Level: 3  
Number of Stages: 4

Watch out for the fat blue sea monster. Chuck can swim underwater, and float to the surface when you release control of him. On the other hand, he sinks to the bottom when he loses a life. Use the frogs to jump with—although they can be a bit hard to see in the murk.

17

## CHUCK CHILLS OUT IN THE ICE AGE

Level: 4  
Number of Stages: 6

The ice is blue and so is Chuck—will he ever get to see his lovely Ophelia again? Not if the wild and woolly mammoth can help it. Fortunately the smaller red woolly-tusked creatures can help Chuck escape by sucking him into their trunks and shooting him through the air.

## WATCH OUT FOR 'DEM BONES

Level: 5  
Number of Stages: 4

You've got four bone-dacious levels to make it through to your lovely Ophelia. Beware, some of these bones come alive. Watch out for live dinosaurs that will spring up at you. Even some of the creatures you knock off will come back to haunt you. Remember! The curled-up red snakes can be useful—just kick them and they'll let you use them to walk over.
