# **WARNINGS Read Before Using Your Sega Dreamcast Video Game System**

## **CAUTION**

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

## **HEALTH AND EPILEPSY WARNING**

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

## **OPERATING PRECAUTIONS**

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in any thing other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

## **PROJECTION TELEVISION WARNING**

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

## **SEGA DREAMCAST VIDEO GAME USE**

This GD-ROM can only be used with the Sega Dreamcast video game system. Do not attempt to play this GD-ROM on any other CD player; doing so may damage the headphones and/or speakers. This game is licensed for home play on the Sega Dreamcast video game system only. Unauthorized copying, reproduction, rental, public performance of this game is a violation of applicable laws. ## GAME FLOW

Repeat steps (01 to 03) to carry as many customers to their destination within the time limit.

### PICK UP A CUSTOMER!

Characters with "\$" or number icons over their heads indicate potential

customers. When you stop your cab within the stop zone (the circular outline that appears around the customer), the customer will get in the cab.

02

03

Once the customer gets in the cab, the "Destination and Distance Counter", the "Direction Arrow" and the "Customer Time Limit" will be displayed. Use the arrow as a guide to take customers to their destination before the "Customer Time Limit" expires. The customer may pay you a tip in appreciation of "crazy" driving (p.11).

The destination is rimmed by a green wall. Stop the cab within the area, and the customer will exit the cab and pay their fare (p.10). Please also note that when you are carrying a group, you must take all customers to their separate destinations in order to receive the fare.

\* The game time stops while the customer is getting out, and you will not be able to control the cabbie during this time.

### TIME BONUS FARE

## TIPS AND RADICAL MANEUVERS

Nihilistic, cool, and a tad bit insane, "Slash" is a hip guy in cool threads. Some say he's irresponsible, but ask anyone and they'll say Slash takes care of his bros. One might think Slash would always be surrounded by friends, but once you get to know him you'll soon learn that most people shy away. Why? Because Slash is a man with two faces. He can lose his temper over even the smallest matters. And once he does, there's absolutely no one that can stop him. Everyone around him becomes an enemy. Anyone who approaches him when he is angry must either be a brave soul or a complete idiot. Luckily, everyone knows that as long as you don't get on his nerves, Slash will do his job well. In fact, Slash's first class driving skills have garnered him a very loyal following. Why did he become a cabbie? No one dares ask. But if you were to ask around, everyone would say it was probably just a whim.

Cool looks and a hint of madness, "Iceman" is a cabbie with an attitude!

He does everything his own way, and never pays a compliment to anyone, even at work.

Whenever a customer compliments him, you can expect a brusque reply. For him, success is the only option and it isn't open for debate. If anyone criticizes him for his mistakes, he will stare at them and say, "You got a problem with what I'm doin'?" Nothing is impossible for Iceman. Even when he makes a mistake, he considers it a spontaneous happening.

Perhaps it was his destiny to become a cabbie. With his personality, there's bound to be problems, and because of this, no job has lasted long. But one day, while driving his car, he saw an old man hitchhiking. He let the old man aboard, and in his usual high speed, delivered him to his destination. The old man was so grateful, he gave him a huge tip. The next day, he painted his car yellow and the rest is history. Iceman drives his taxi just to get by, and spends peaceful days with his beloved dog, a boxer named "BB."

Charming looks and incredibly cheerful, "Cinnamon" is a spunky girl with some serious driving skills. Think positively, that's her policy. The problem is that she often has trouble distinguishing between what is right and what is wrong. When trouble arises, she often forgets mistakes and lessons from the past. She is very forgetful, but with her earnest and caring attitude, and cheerful disposition, there is no one in this town who dislikes her. Everyone always wonders why she never learns; they end up giving her the same advice time and time again. She loves life whenever she is being praised. Having the chance to meet and please so many people every day is the reason Cinnamon chose this career. Her driving skills and maneuvers always delight her passengers, but occasionally she pushes it a bit too far.

“Hot-D” is an old man who manages to be incredibly cheerful and physically youthful. He’s a thrill-seeking cabbie who loves making money! At one time a wild and crazy stunt driver, Hot-D always wondered how he could make more green. Then, one day, while visiting the West Coast to film stunts for a big action movie, Hot-D was driving downtown when he saw a yellow blur streak past him on the road. It was a cabbie driving his taxi with skills that would impress even the best professional stunt driver. With superior driving skills, Hot-D caught up with the cab to get a closer look. That is when it dawned on him that he could take his driving skills back East and make a ton of money. He immediately headed home, painted his favorite car, and concentrated on improving his social talents. He knew that delighting customers was the way to earn the big bucks. Hot-D is well known for his superior service, and his customers are always impressed with his “driving-while-talking” skills. Occasionally, this talent gets him into a bit of trouble when he becomes so engulfed in conversation that he forgets to drop his customers off. Luckily, one of his greatest skills is calming down angry customers. Hot-D’s theory is, if they’re angry, they won’t leave a tip—and as you know; it’s all about the green.
