WARNINGS Read Before Using Your Sega Dreamcast Video Game System

CAUTION

Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

SEGA DREAMCAST VIDEO GAME USE

Important: Never touch the Analog Thumb Pad or Triggers L/R while turning the Sega Dreamcast™ power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.

1. Insert your Dave Mirra Freestyle BMX™ Sega Dreamcast Specific Disc into the Control Deck as described in the instruction manual.
2. Insert your Sega Dreamcast Controller into Controller Port A.
Note: Dave Mirra Freestyle BMX™ is a 1- 2 player game*. Before turning the Sega Dreamcast power ON, connect the controller or other peripheral equipment into the control ports of the Sega Dreamcast.
3. Switch on the power to your Sega Dreamcast Unit.
4. You will be prompted to select a VMU on which to save your progress in the game. Each saved game requires 18 blocks of memory. If you do not have a VMU or it does not have adequate blocks to save the game data, you will be alerted but may continue playing.

While saving a game file, never turn OFF the Sega Dreamcast power, remove the memory card or disconnect the controller.

* Purchase additional controller (sold separately) to play with 2 players.

To return to the title screen at any point during game play, simultaneously press and hold the A, B, X, Y and START BUTTONS. This will cause the Sega Dreamcast to soft-reset the software and display the title screen.

SEGA DREAMCAST HARDWARE UNIT

Use these ports to connect the Sega Dreamcast Hardware Unit or other peripheral equipment.

From left to right are **CONTROL PORT A, CONTROL PORT B, CONTROL PORT C, and CONTROL PORT D.** Use each port to connect controllers for players 1 to 4 respectively.

SEGA DREAMCAST VISUAL MEMORY UNIT (VMU)

Never disconnect the VMUs while performing a battle or exchanging data with another VMU. Also note that leaving two VMUs connected for a long period of time will considerably shorten the life of the batteries.

SEGA DREAMCAST CONTROLLER

Never touch the Analog Thumb Pad or Triggers L/R while turning the Sega Dreamcast™ power ON. Doing so may disrupt the controller initialization procedure and result in malfunction. If the Analog Thumb Pad or Triggers L/R are accidentally moved while turning the Sega Dreamcast power ON, immediately turn the power OFF and then ON again making sure not to touch the controller.

MODIFIER TRICK CHEAT SHEET

In Dave Mirra Freestyle BMX you can actually create new tricks on the fly by mixing tricks together with other tricks. You can mix Big Air tricks with Modifier tricks, Big Air with Big Air and Modifier with Modifier. You can literally mix and match almost anything and make up completely new tricks. There are more than 1,300 different tricks, not including combos. The Modifier is so powerful, you can create almost anything, including tricks even the pros haven't dreamed of!

EXAMPLE 1: BIG AIR + MODIFIER

SUPERMAN via  + X BUTTON followed up immediately with a **NO HANDER**  + B BUTTON creates a **NO HANDER SUPERMAN**. Continue to hold the B BUTTON and you will hold the trick in the air.

Tip: You can even do a **NOTHING BACKFLIP**, if you're quick enough. See **NOTHING** below.

EXAMPLE 2: MODIFIER + MODIFIER

A **NOTHING** (  + B BUTTON) is the combination of a **NO HANDER** ( + B BUTTON) and **NO FOOTER** ( + B BUTTON).

EXAMPLE 3: BIG AIR + BIG AIR

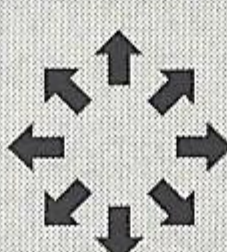

A **CANDYBAR BACKFLIP** (  + X BUTTON) is the combination of a **CANDYBAR** ( + X BUTTON) and **BACKFLIP** ( + X BUTTON).

Experimentation is the key. The more you improvise, the higher the score. Even more tricks (Double Backflips, Frontflips, Double Tailwhips, etc.) can be done by double pressing   or   or   or   or   or   or   or left - right or right - left, using either X BUTTON or B BUTTON + a direction.

GETTING STARTED

Once you choose a game mode, it's time to make your selections for that mode. In Session, Free Ride and 2-Player modes, you select from the available riders, bikes, styles and levels. More are unlocked as you progress through the Proquest portion of the game. In Proquest, you ride on the levels in the order presented, and you have to earn the better bikes and styles. Press **DIRECTIONAL BUTTON LEFT** or **RIGHT** to cycle through available selections. Press the **A BUTTON** to select. Once you make a selection, the highlight automatically goes to the next category. Press the **B BUTTON** to cancel a selection and backup to a previous category.

RIDER SELECT

Select any of the great BMX riders to control. To the right of each rider portrait is his ranking in four vital BMX skill categories. The more arrows, the better.

AIR: Determines jumping power and gravity-defying ability.

SPEED: Determines maximum top speed and acceleration (speed added per pedal).

SPINS: Determines base rotation speed, allowing for faster, more controllable spins and flips.

BALANCE: Determines ease of balance to hold grinds or stalls.

RIDER PROGRESSION

Each rider's progress through Proquest is displayed in two rows of six boxes. The top row indicates progress through the six challenge levels, while the row beneath shows

progress in the six competition levels.

In the challenge levels, bronze indicates completion of the amateur challenges, silver indicates completion of the pro challenges, and gold indicates completion of the hardcore challenges. No filled color (black) means that no challenges have been completed yet.

In the competition levels, bronze indicates a 3rd place finish has been achieved, silver indicates a 2nd place finish, and gold indicates that the rider has taken 1st in the competition. No filled color (black) means that the rider hasn't finished in the top 3 of the competition.

BIKE SELECT

Bikes are rated in four performance categories. The bikes add on to a rider's attributes (as seen by the different color), boosting his performance in each category.

AIR: Determines jumping power and gravity-defying ability.

SPEED: Determines maximum top speed and acceleration (speed added per pedal).

SPINS: Determines base rotation speed, allowing for faster, more controllable spins.

BALANCE: Determines how long a rider can hold grinds or stalls without balancing.

You begin with a selection of default bikes. They're enough to get you started, but you'll want to earn the bike each rider prefers by completing the required level challenges. You earn a bike upgrade for completing various tasks throughout the game.

STYLE SELECT

Choose from five pre-set style configurations. Again, you start off pretty plain, but once you attract sponsors, you'll be dressing for excess success, and wind up clad in a stylish competition jersey.

LEVEL SELECT

There are 12 levels, including dirt, street and vert locales. The first six levels offer different challenges and trick objectives. At these levels, you're trying to prove you have what it takes for the Pro Tour. Unlock bike upgrades and other goodies by meeting all the Pro and Hardcore challenges for each level. Once you earn a better bike, revisit previous levels to reach areas and earn scores you couldn't manage with your default bike. The last 6 levels are competition-based levels. Compete against the best of the best.

CHALLENGE-BASED LEVELS

GREENVILLE: Begin by learning the basics down in Greenville, NC.

WOODWARD: Come to the famed Pennsylvania camp to hone your skills and earn a sponsor.

COMPETITION-BASED LEVELS

PROTOUR: The first leg on the way to the tournament.

ACCLAIM MAX GAMES: Tournament style areas that are plenty tough.

LEVEL OBJECTIVES

The first six levels, based on Greenville and Woodward, are challenge-based training levels. You'll see on-screen prompts that tell you what you need to accomplish before the timer runs out. Don't worry if you don't meet all the challenges in one run. Once you get certain challenges under your belt, the game will remember them, and all you have to do is finish the rest of the challenges in your next run(s).

You begin each level as an Amateur. Once you've met the Amateur challenges on any particular level, you can go on to the Pro challenges on the same level (another run), or try to meet the Amateur challenges on a different track (level select). You must meet all the Amateur challenges to face all the Pro challenges, and must master all the Pro challenges to go on from Greenville to Woodward. Complete Pro and Hardcore challenges to earn new bikes, gear and sponsors (you can complete the game without finishing all the Hardcore challenges).

GAME MODES

PROQUEST

Proquest is a career mode, for those who want to go for the whole enchilada. At the start of Proquest play you're a beginner, just starting out with a default bike, a helmet and more attitude than skill. You've got a lot to learn. Take your time mastering the basics in Greenville, then move up to some serious scrutiny at Woodward Camp. If you have what it takes, you'll attract sponsors and go on to the Pro Tour. Competition is fierce at this level, so expect to be challenged. If you manage to complete all three levels of the Pro Tour, you'll really be sweating when you enter the Acclaim Max Games. You can keep track of each rider's individual progression through Proquest at the rider selection screen. Each level is represented by boxes which will fill either Bronze, Silver, or Gold for the completion of the Amateur, Pro, or Hardcore challenges, respectively.

SCORING: In the last 6 levels, you earn points based on the difficulty and imagination of the tricks performed. The following levels are judged pro competitions where discerning judges rate your performance based on established BMX criteria. The judges are tough, so only your very best will be good enough!

SESSION

In a Session, the timer is ticking and you're free to ride hard on any available level, with no challenges to be met. Total score and measurements are displayed, so any level records can be broken. You won't earn new bikes, sponsors, outfits, cheat codes or levels in Session; this one's just for the joy of the ride!

2-PLAYER

In a 2-Player game, each player takes turns competing in a host of challenges. Player 1 goes first; player 2 then tries to top that performance. Try your hand at a round of HORSE (the second player has to match the first rider's moves), see who can nail the Highest Walltap, and many more. Highlight a 2-Player game mode and press the **A BUTTON** to view the game objective. Then get ready to show your bud that you just can't be beat!

THE GAME SCREEN

CONTROL HINT: On screen text gives you control tips.

CHALLENGES: On screen text tells you what you need to do to ace the course.

TIMER: Each level is timed. You must complete your challenges or beat your competition in the time allotted for that level.

At the end of each run, a display comes up showing your score, the overall best score to date and these options:
