

SEGA
GENESIS
16-BIT CARTRIDGE

Beast Wrestler™

INSTRUCTION MANUAL

RENOVATION
PRODUCTS™

HANDLING THE SEGA GENESIS CARTRIDGE

- The Sega Genesis cartridge is intended exclusively for the Sega Genesis System.
- Do not bend, crush, or submerge in liquids.
- Do not leave in direct sunlight or near a radio or other source of heat.

Warning to owners of projection televisions: Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

GAME HINT HOTLINE

If you have any questions about playing **Beast Wrestler** or you are interested in hints on how to play more effectively, please call the Renovation Game Hint Hotline at: (415) 591-7529

DISCLAIMER

The persons, names, places, institutions, incidents and commands in this game are all fictional, and do not refer to or portray any incidents. Any resemblance between the persons, names, places, institutions and incidents in this game and actual persons, names, places, institutions and incidents is purely coincidental.

*Thank you for purchasing the **Beast Wrestler** Cartridge for the Sega Genesis System. Please read this instruction manual carefully to ensure proper handling of your game.*

STARTING UP YOUR SYSTEM

1. Set up your Genesis System as described in its instruction manual. Plug in Control Pad 1.
2. Make sure the power switch is OFF. Then insert the Ys III cartridge into the console, *with the label facing towards you* and press it down firmly.
3. Turn the power switch ON. In a few moments, the SEGA screen appears.
4. Press Start when the Title screen appears.

Important: If the Sega screen doesn't appear, turn the power switch OFF. Make sure your system is set up correctly and the cartridge is properly inserted, with its label facing toward you. Then turn the power switch ON again. Always make sure the power switch is turned OFF before inserting or removing the Sega cartridge.

A new innovative wrestling match performed by Beast Wrestlers, giant man-made beasts created by the life sciences for your enjoyment.

TAKE CONTROL

The ruler (player) needs to skillfully manipulate the Control Pad in order to become a good ruler of the Beast Wrestlers. Are you ready to challenge the Dragon Warriors?

CONTROL PAD

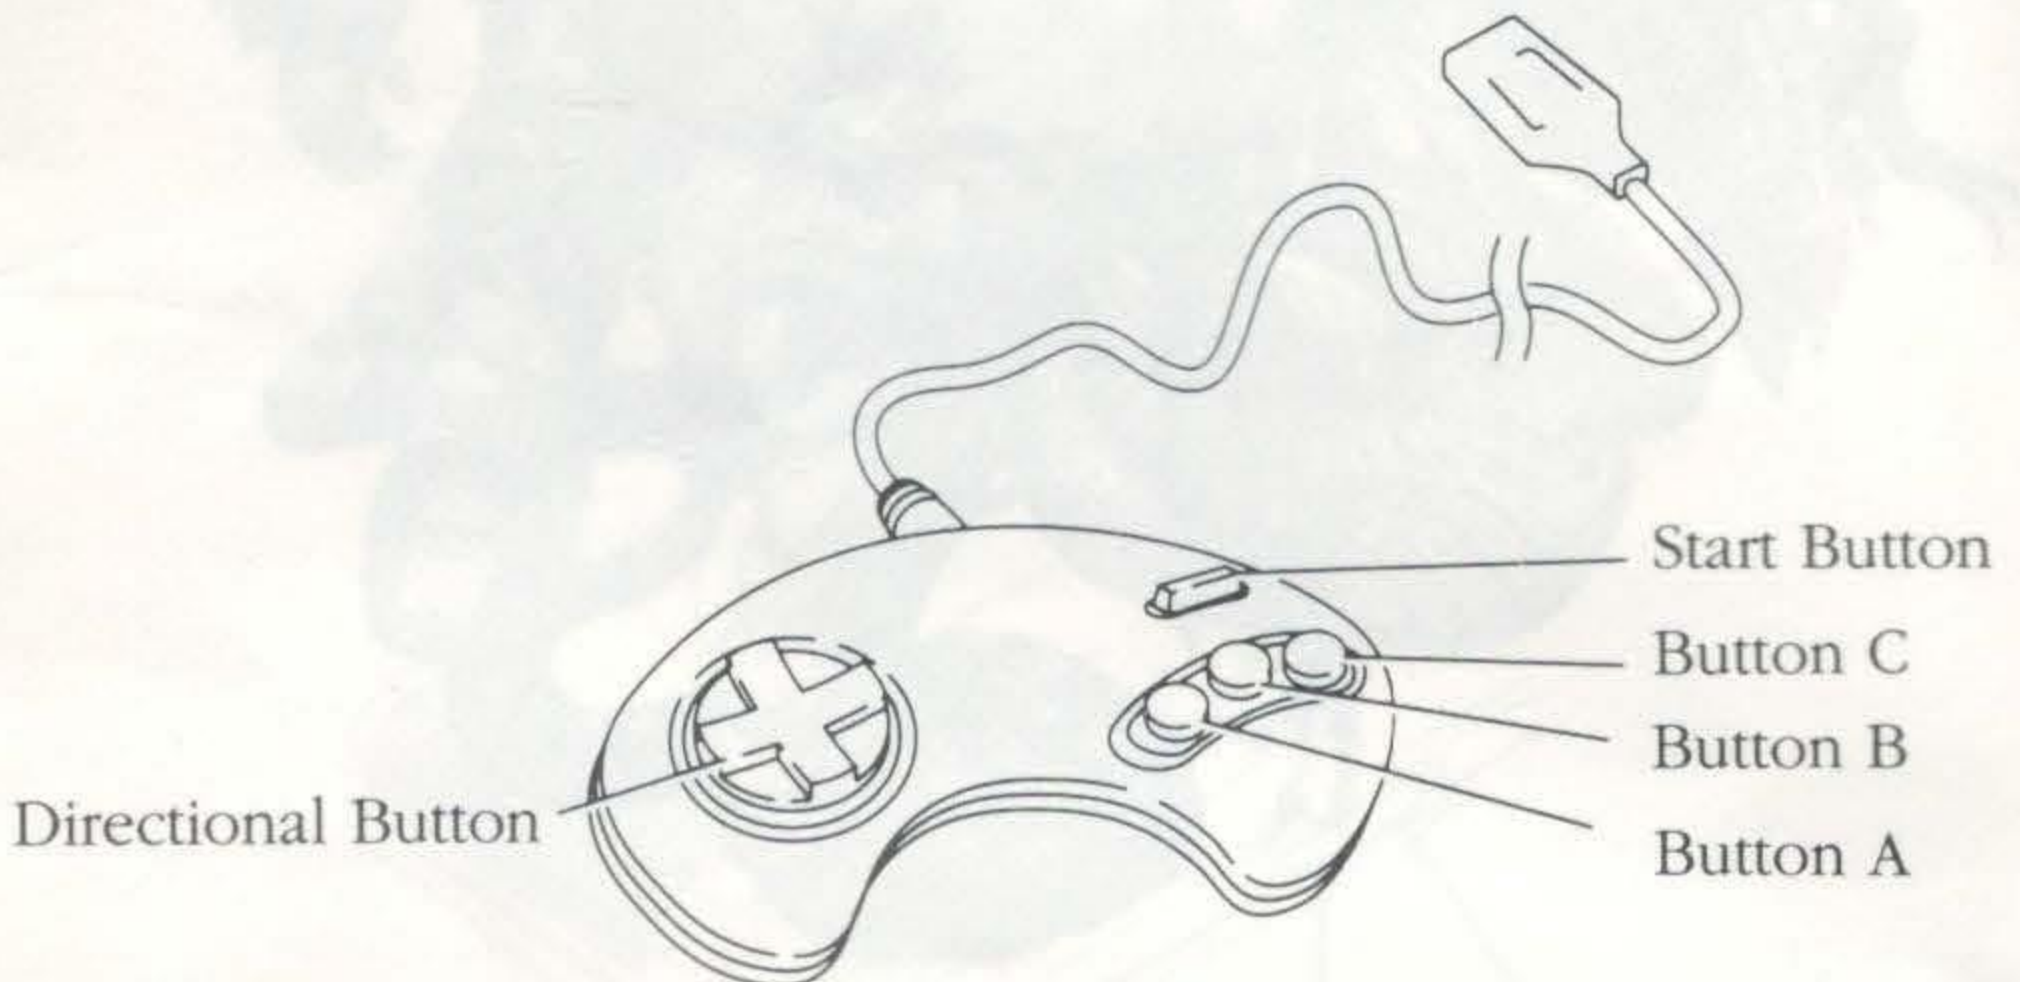

Start Button: Press to start game. During play, press to pause game. Press the button again to resume play.

Directional Button: Press to select Command and to move your Beast Wrestler. Combination of A, B, and C Buttons will enable you to choose different attack methods.

A Button: Press to select Command and to attack.

B Button: Press to cancel Command and to attack.

C Button: Press to give a deathblow.

HOW TO PLAY

Let the games begin!! The Match Mode allows you to enjoy a straight game of Beast Wrestler. On the other hand, the Tournament Mode will take you through a more dramatic side of the game.

TOURNAMENT MODE

This is the Mode for one-player against the computer. The player assumes a rookie ruler and challenges a ranked player. The aim is to become the world champion. Choose a Beast Wrestler from the Player Characters and give the wrestler any ring name of choice. First the player must pass the DWC's Pro Test. The wrestler won't be allowed to step inside the field (ring) without passing this test.

Once past the Pro Test, challenge the Domestic Championship and then the World Championship. Along the way, purchase items at the shop and attend training. After the match, the skills of the beast wrestler and the opponent that lost the match are incorporated to give a beast wrestler with an even higher capability. Tournament Mode will allow enjoyment of a long and involved game.

MATCH MODE

This is the Mode for both one player and two players. This is a simple game. Whoever defeats the opponent wins this short game. Choose a wrestler out of ten different beasts.

For the game with two players, each can choose his or her own beast. Try many interesting beasts to enjoy different deathblow techniques.

GAME TIME

One game takes 7 minutes for either the Tournament Mode or the Match Mode. When LP (Life Power) becomes '0', its a Knock Out. When the beast cries three times, its over (TKO). When the time runs out or both players are knocked out at the same time (Double KO) in the Match, a player will win or lose by a decision. In Tournament Mode, a KO, TKO or tie decision ends the game and the player loses.

FIGHT SCREEN

Attack Mark: Power is needed to give a deathblow. The attack mark will flash when deathblow is available.

Time Counter: This shows the remaining time of the game.

Number that the Beast Cried: When a beast cries three times, due to strong holds, the game is over by TKO. The red lights indicate the number of times a beast has cried out.

SAVE AND CONTINUE

When playing the Tournament Mode, saving the entry password is required. At the end of each game, the password will appear. When discontinuing the game, write the password down. To continue playing many more matches, enter the corresponding password.

TOURNAMENT MODE

The player starts as a rookie ruler of a dragon warrior. The aim is to achieve the world championship by fighting with both domestic and world champions, who are members of the DWC. (Dragon Warriors Committee).

NAME ENTRY

After selecting the tournament mode, name the beast with a ring name. Then, select either MAGNUM DASH or FLYING SCREW for deathblow technique to be used throughout the game.

PRO TEST

Let the games begin! Before fighting with a domestic ranking player, the PRO TEST provided by the DWC must be passed. The test fight is with GENECTOR, a beast provided by the DWC. The player must pass this test or else he or she will not be allowed to register as a pro player. Good Luck with the fight!!!

TOURNAMENT MODE

DOMESTIC RANK

When past the pro test, fight for the domestic championship against five domestic-ranked players.

When the current domestic champion, D-BITON, is defeated, the player becomes the new domestic champion and gains the right to fight with the world-ranked players. Reach above basic abilities and become the World Champion!

THINGS TO DO BETWEEN THE FIGHTS

Between the fights, purchase an item at the item shop with the fighting money earned to strengthen the beast. Also, training of beasts is possible by participation in training events offered.

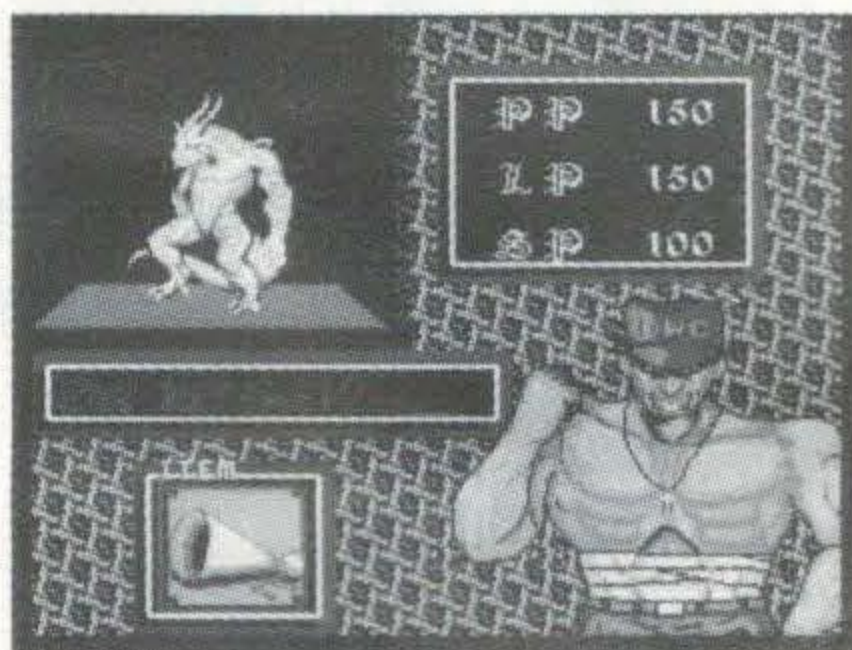

TRAINING

Participate in this compulsory event between the fights. Options are: INJECTION OF A FOOD ITEM and TRAINING. Purchase food items at the shop and when selecting training, choose one out of the following three training sessions:

PP Training: This training will help beast player gain Power Points. The higher the power points, the greater the attack power.

LP Training: This training will give the beast wrestler enduring power points (Life Power). The higher the LP, the tougher the wrestler becomes.

SP Training: This training will help wrestler gain speed. The higher the speed points, the faster the player moves.

SHOP

Purchase any items listed on the next page with the fighting money from winning a match. There are some items which need to be purchased to move onto the next match, and others which will help the training.

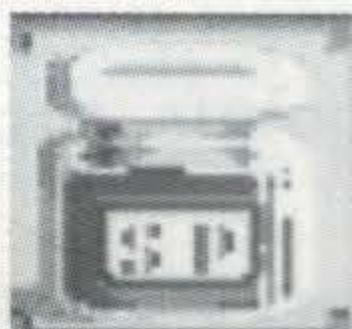

ITEM LIST AT THE SHOP

PP FOOD- Boosts the beast's Power Points

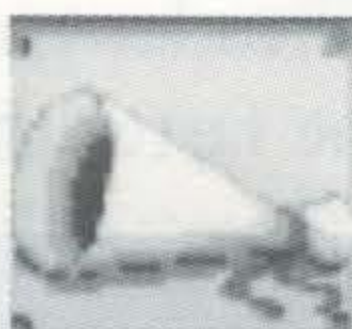

LP FOOD- Raises the beast's Life Power (Endurance Power).

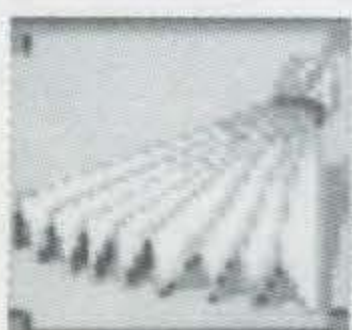

SP FOOD- Increases the beast's Speed Power.

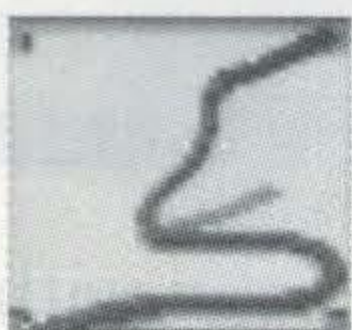

FOOD GUN - The food gun is needed to inject the food items into beast player.

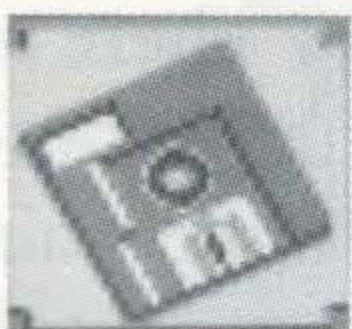

BULLHORN- This will add 10 points toward the training of the beast wrestler.

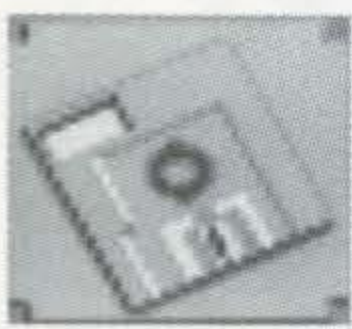

ACUPUNCTURE - This will add 20 points toward the training of the beast wrestler.

WHIP- This will add 30 points to the training of the beast wrestler.

DATA DISK 1 - This will enable viewing of the data of all the domestic ranked players prior to the fight.

DATA DISK 2 - This will enable viewing of the data of all the world-ranked players prior to the fight.

A PASS TO THE INTEGRATION FACILITY - This pass must be purchased to use the integration facility to incorporate player's beast and the other beast.

CHARACTERS

The main characters of this new wrestling match are the fighter dragons and beasts, which were born out of the technological masterpiece of what the life sciences can offer. They are the star characters of the DWC games. This game of the dragon warriors takes place in the year 2020, just five years after the game was introduced. We are proud to offer our Beast Wrestlers in this game.

NON-RANKING PLAYERS PLAYER CHARACTER

Height: 8.21 meters (27 feet)

Weight: 2.52 metric tons (2.77 tons)

Production Code: Hse-2019

Manufacturer & Sale: HALT CO.

The new 2019 model Dragon Warrior, of the DWC JAPAN, is an improved model of the standard best selling model dragon 'ENTALL'. Its frame and muscle structures are more human than last years model. It can oxygenate hemoglobins much more effectively than last years model.

This dragon received 'the best form award' of the Dragon Year 2019.

This dragon is for the tournament mode only, and the player operates the dragon.

REGULAR BEAST OPERATION

BUTTONS

- A
Press the directional button twice in the direction you want (diagonally, top left or right, or down left or right).
- Dash and A or B
- Body hold and A
- Interlocked and B
- Interlocked and A + Down
- Interlocked and the Directional Button diagonally top left or right and bottom left or right + B
- An opponent down, A + UP
- An opponent down, A + Down
- An opponent down + B
- Interlocked from behind the opponent and A or B

* It is important to develop a good sense of timing, and how to use the various buttons when the beasts interlock each other. Some beasts are strong at the close contact and others are not.

TECHNIQUES

- Punching
- Dash
- Drop kick or Lariat
- Tail Hold
- Body Slam
- Biting (for some beasts this is a Special attack)
- Hammer throw
- Tail Press (Special attack)
- Three Bar Hold (Special attack)
- Make the opponent stand up
- Back Drop (Special attack)

NON-RANKING

GENECTOR

Height: 7.99 m (26 ft.)

Weight: 2.37 m. tons (2.6tons)

Primary Dragon: 'ENTALL' HALT CO.

Records: November 2019

GENECTOR was made as a testing dragon for the Pro Test, which is a modified model of 'ENTALL'. This dragon tests the power of the candidate; therefore, it does not possess a special technique, it is good in all techniques. This is certainly a dragon that you

cannot afford to treat lightly. GENEATOR is trusted by the DWC JAPAN, and gets along well with its ruler, Ryoko Tamise.

RYOKO TAMISE (24 years old)

This is her first year of being the final test judge of the Pro Test. she is an excellent ruler of GENEATOR, the dragon made for the Pro Test. She works for the HALT CORPORATION and has

been involved in developing ENTALL 2019, the primary dragon of GENEATOR. Consequently, she knows the dragon very well but her only weakness is that she is a pushover for any man.

DOMESTIC RANK

NO. 5 in Japan

VALOSE-M

Length: 14.85 m (48.7 ft.)

Weight: 6.25 m. tons (6.89 tons)

Primary Dragon: 'STRAWBERRY' BULLS EYE CO.

Records: Jan. 2015 G-78, W-51, L-27

VALOSE first came out and won a game in June 2013. Since then his winning rate was an excellent 80%. He was expected to enter into the world rank. In August 2014, at the DWC SUMMER LEAGUE, Valose was defeated at the exhibition game by JISTALE, an invitational player from the Soviet Union. Consequently, 92% of Valose's basic body system was destroyed and Valose was forced to retire. Later it was converted into Cyborg style and came back as VALOSE-M. It does not see eye to eye with its controller, and lately its winning rate has been declining.

KOKORO MEKKI (17 years old)

This ruler is a high school student and his skin is as blue as a lake.

Two years ago he had a traffic accident and 72% of his blood was replaced with ORNOL PPK, a highly hemoglobin blood. There-

fore, he has super human strength and is strong ruler when it comes to an endurance match.

No. 4 in Japan

AIR HOLE

Height: 6.55 m (21.49 ft.)

Weight: 2.00 m. tons (2.2 tons)

Primary Dragon: 'ENTALL S' HALT CO.

Records: May 2016 G-68, W-54, L-12

AIRHOLE is the smallest dragon of the DWC Japan and is equipped with huge flight wings. It is made for its speed and not for its power or endurance. Its unique technique of Hit-and-Away from up above a field is very powerful. Its light, small body is at a disadvantage in the body hold, but it has a deadly technique called: Flying Dragon Super Throw. AIR HOLE grabs the opponent, flies into the air, and throws him down onto the field. Unfortunately, this deadly technique has a small success rate.

KENZO MOROOKA

(57 years old)

He appears to be a right wing nationalist but actually he is merely a madman. He uses the Dragon Warrior as a tool to gain his fame. Nonetheless, he is an excellent ruler and nobody should take him lightly.

DOMESTIC RANK

No. 3 in Japan

VELVENT

Height: 13.01 m (42.7 ft.)

Weight: 3.38 m. tons (3.73 tons)

Primary Dragon: 'TOKAGIN' HALT CO.

Records: May 2016 G-67, W-41, L-23

A four-footed dragon with human-like upper body. Its four legs and two arms allow this dragon to use some unique attacks. The stable lower body makes it almost impossible to be thrown down. Yet, as with all the special dragons,

Velvent has its own weaknesses. It lacks swift movement and its vulnerable to attack. Look out for its Million Punch. This can break a 6.6 foot thick hard porcelain plate in 1.1 seconds flat. Needless to say, it is an awesome opponent.

YUI HOSHINO (17 years old)

She is an attractive high school student. She wears a sailor uniform and is a very credible ruler on the field; however, she possesses a demur feminine side. She is very popular as a ruler.

DOMESTIC RANK

NO. 2 in Japan

DYCOON

Length: 12.59 m (41.3 ft.)

Weight: 2.64 m. tons (2.91 tons)

Primary Dragon: 'REBORN' HALT CO.

Records: Janaury 2015 G-91, W-75

DYCOON is a standard no-leg attack dragon equipped with a WATER SHOOTER GUN. It also possesses a powerful tail whipping attack and can execute a deadly body lock with its snake-like body. If the opponent is hit by the deathblow, WATER SHOOTER GUN, the effect is just as deadly as an energy bomb.

Consequently, it is not only strong in a close fight but also in a long distance attack. DYCOON has a steady winning record worthy of the No. 2 position in Japan.

SOYA SENDO (21 years old)

He is recognized as a wise and able ruler. He is also an expert of the comprehensive deathblow technique known as DRAGON KING. He lost an eye in a fight ten years ago and gets along well with DYCOON. You will find them very strong opponents.

DOMESTIC RANK

No. 1 in Japan

D-BITON

Height: 8.22 m (27 ft.)

Weight: 2.96 m. tons (3.26 tons)

Primary Dragon: 'ENFEED' HALT CO.

Records: May 2019 G-23, W-21, L-2

D-BITON appeared as suddenly as a comet, and achieved the No. 1 rank in Japan in no time. It is equipped with GRABLESSERS, two small weight regulated earth ball shooters. These shoot out balls called GLIVERS which utilize the RH reaction of hemoglobins to activate the shooting mechanism. An opponent that is hit with the GLIVER is paralyzed for four seconds. This is the D-BITON's deadly tactic for both defensive and offensive purposes. For those opposing dragon warriors who cannot afford to lose a second of their reaction time, a four-second freeze means a certain death. We look forward to its progress into the world championship.

KIKEI WAKATSU (18 years old)
He is known as the genius ruler who became the Japanese Champion within six months of his first joining as a ruler. He is the World Champion of the 2017 Student League. Due to his good looks and radical opinions, he has many female fans.

TO INCORPORATE PLAYER CHARACTERS

You need to incorporate your dragon player with the player characters twice in the Tournament Mode: once during the domestic game and, and again in the world game.

Here are the first set of incorporate beasts:

VELVENT INCORPORATION

Deathblow Technique:

Nail Shock -

Press the C Button while the opponent is standing.

DYCOON INCORPORATION

Deathblow technique:

Water Shooter -

Press the C Button while the opponent is standing.

WORLD RANK

WORLD RANK NO. 9 AND NO. 1 IN MEXICO
FEDERICO

Length: 13.22 m (43.3 ft.)

Weight: 2.99 m. tons (3.3) tons

Primary Dragon: 'OLIRATUS' BULLS EYE CO.

Records: November 2105 G-130, W-98, L-32

In the world of rapid development, this dragon belongs to a veteran's group. The basic body system is becoming old but he still holds the world rank. This is due to its long training, maturity, and moreover, the ruler's expert management of the game.

Since 2017, the tail has been equipped with a Tail Attachment, a laser gun and it is accompanied by a multitalented and popular ruler, Maldo La Centa. Federico has many followers.

MALDO LA CENTA

(31 years old, Mexico)

He has a six year long career with the dragon warrior games. He has been an excellent ruler ever since he first started.

WORLD RANK

WORLD RANK NO. 8 AND NO. 1 IN ITALY WLOBOLOS

Height: 13.56 m (44.5 ft.)

Weight: 8.94 m. tons (9.85 tons)

Primary Dragon: 'LOW PLOTTER' BULLS EYE CO.

Records: September 2016 G-84, W-60, L-4

This dragon originally started out with an all man-made body system, but after so many changes 79% of the body became a Cyborg in the present body form. With its machinery equipment the movement is much slower than the other dragons. In order to compensate for this disadvantage, it has two Magnetic Compressor Guns on each shoulder. The destruction capability of the gun is just awesome. When it hits the target, it produces over 500,000 tons of power. The mechanical parts of WLOBOLOS are made by the Kumochi Heavy Industry without charge.

LADICCA C. (16 years old, Italy)

She is a lovely ruler with eyes that look like pretty glass marbles. Her personality reflects her meticulous ruling, and she was qualified for the world rank. She gets along with WLOBOLOS exceptionally well and every move she makes helps WLOBOLOS react in the field. She is getting married soon.

WORLD RANK

WORLD RANK NO. 7 AND NO. 1 IN GERMANY ARELOW

Height: 9.56 m (31.36 ft.)

Weight: 1.32 m. tons (1.46 tons)

Primary Dragon: 'AMEBA' BULLS EYE CO.

Records: February 2019 G-28, W-21, L-7

This dragon has the most unusual body of all the DWC world rank players. The

primary dragon was developed a year ago by the

BULLS EYE Co. of Ger-

many. Out of the many

ameba sold by the company,

this is the only one qualified

as world rank player. The cell

connector enhancer, TYT, was added to the basic unit,

double vision single cell '1-021'. As a result, its endurance

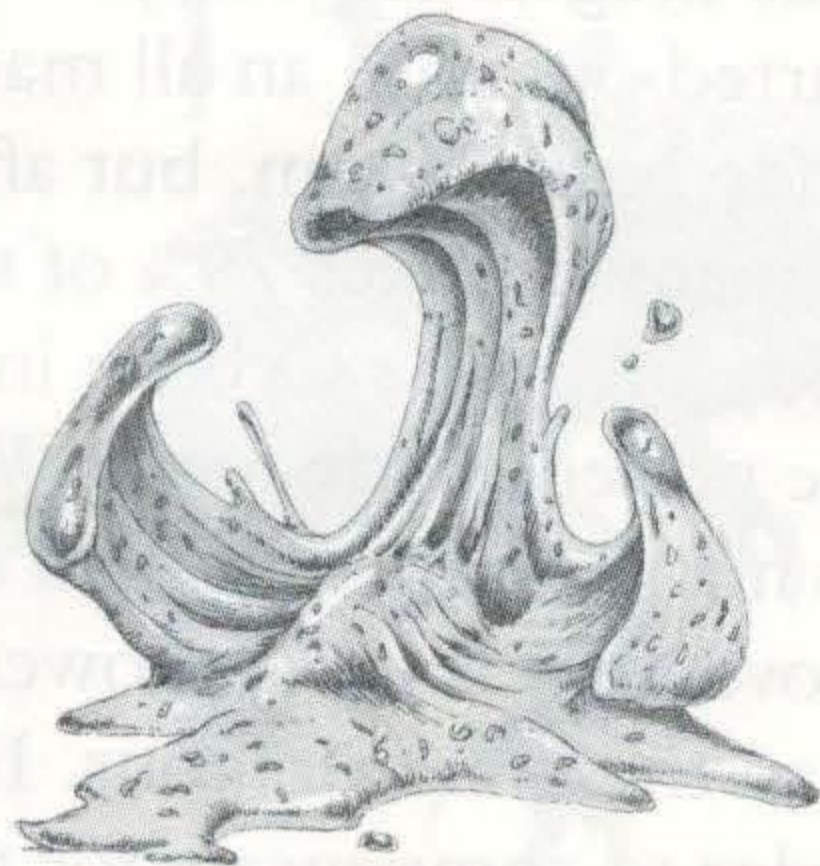

capacity was greatly enhanced. Since its non-conforming

body can absorb damaging shocks, and can attack the

enemy with its unique and free-styled methods, this is

one of the outstanding opponents to any of the

ranking players.

LESSOR GRAFF Ph. D.

(56 years old, Germany)

He is a member of the DWC

Germany and a third generation

Japanese-German. He has a doctrate

in genetic engineering and has

succeeded in keeping the natural cell division to a mini-

imum using his invention 'TYT' the cell connector

enhancer. His ruling technique is very conservative, but he

is liked by sophisticated players.

WORLD RANK

WORLD RANK NO. 6 AND NO. 1 IN THE U.S.A.
OCT

Height: 7.45 m (44.5 ft.)

Weight: 2.85 m. tons (3.25 tons)

Primary Dragon: 'GUNSTOM' BULLS EYE CO.

Records: June 2017 G-51, W-29, L-20

OCT has a funny appearance, but its deathblow 'OCTPUS

Q' is an awesome weapon on any

opponent. From its mouth it blows an energy draining

essence,

FUMAKILEN, onto its opponent's vital

parts. It also distracts a ruler's attention, and contorts the game. OCT has a soft body, similar to the German player ARELOW. Oct's body is capable of absorbing blows from his opponent. Unfortunately, its eight long legs are cumbersome, hard to manipulate, and require the ruler's skill.

WILLY PHILIP

(18 years old, U.S.A.)

He tells the world that he is the genius ruler born only once in a century, yet his winning rate is only 50%. He is the world rank ruler only because there aren't many competitors in the U.S.

WORLD RANK

WORLD RANK NO. 5 AND NO. 1 IN HONG KONG PROGLARZE

Height: 8.04 m (26.4 ft.)

Weight: 3.01 m. tons (3.3 tons)

Primary Dragon: 'RURIRYU' HALT CO.

Records: April 2019 G-25, W-20, L-5

PROGLARZE is the most powerful and popular dragon in Hong Kong. It has the greatest horse power among the DWC players. It has combined this power and the deathblow technique, Power Bomb, to become the champion of Hong Kong.

It's powerful and magnificent ability to blow the opponent away is quite a sight to behold. His fans just love to watch him fight.

At the next World Championship games in the year 2020, PROGLARZE is one of the dragons everybody is waiting to watch.

RICH WONG

(19 years old, Hong Kong)

He has devoted all his youth to the games of the Beast Wrestler. Ever since he debuted last year as a ruler, he has won all the games and now he is the champion in Hong Kong. At the last Hong Kong League Championship games, his dragon fought fiercely against 'HYOSOKI' for 2 hours and 24 minutes. The fight is still remembered by his fans in Hong Kong.

WORLD RANK

WORLD RANK NO. 1 AND NO. 1 IN THE UNITED KINGDOM

HAX-004

Height: 8.36 m (27.4 ft.)

Weight: 12.85 m. tons (14.16 tons)

Main Power Source: 4 Electromagnet Motors

Main Gun: A Neutron Gun

(This does not kill an opponent)

Original Unit: HAX-003DF

Records: November 2017

G-44, W-39, L-5

HAX-004 is the only DWC player that is a mechanical robot. This robot was modified as a fighter dragon from a heavily-armored dragon HAX-003DF, originally made for the big city control purposes by a joint venture of the

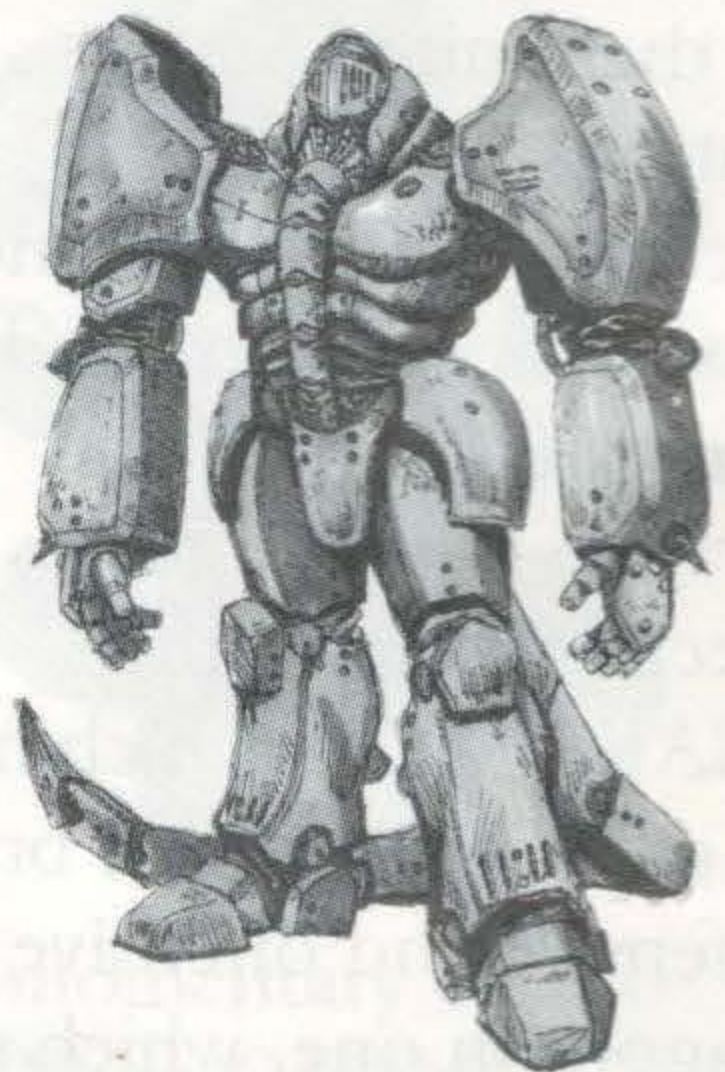

U.S. and Japan. There is a rumor that HAX-004 was recognized by the DWC only because the Kumochi Heavy Industry recommended it. The somewhat negative image is clearly over looked by its ruler, Ronnet Mollssis, who handles the mass media very well and is known for her fair play, and the fact that she does not let her player kill the opponent.

RONNET MOLLSSIS

(20 years old, the United Kingdom)

Her bright smile is well known and she is very much liked by the mass media. since she does not let her player kill the opponent, and vows to have a clean fight, HAX-004

sometimes encounters a difficult fight. She treats her robot player the same as an organic player and they live together.

WORLD RANK

WORLD RANK NO. 3 AND NO. 1 IN INDIA

MACLHA

Height: 8.56 m (11.84 ft.)

Weight: 2.39 m. tons (2.63 tons)

Primary Dragon: None

Records: June 2016 G-68, W-54, L-13

This dragon was developed by the United States Nations Artificial Life Security Committee and was particularly created as a fighter dragon for the Dragon Warrior games. Its special feature is the SNAKE TAIL, which has

its own independent brain. The tail is useful for both defensive and offensive tactics and provides two dragons in one, which gives the opponent a hard time. MACLHA is a very well balanced and fearless dragon.

CORSA TORACE

(25 years old, India)

He is a member of the United Nations Artificial Life Security Committee and is admired by many fans for his steady and

perfectionistic fighting style. Jeag Freed, another member of the United Nations Artificial Life Security Committee, is his rival ruler.

WORLD RANK NO. 2 AND NO. 1 IN FRANCE

OMINOS T-2

Length: 12.62 m (41.4 ft.)

Weight: 3.00 m. tons(3.3 tons)

Primary Dragon: 'SIREN' BULLS EYE CO.

Records: August 2018 G-55, W-36, L-19

The specialties of OMINOS T-2 are his two heads. He is equipped with an electrolytic disassociation defense system called HIGH FIGHT. This system was handed down from OMINOS T-1 and is the ultimate defense system. It gives total protection from the opponent by administering a momentary electrolytic disassociation of molecules. When OMINOS T-2 administers the protection, he uses his snake like body to strangle the opponent. The fighting match with this dragon usually lasts a long time.

TUTOUE WIZEN

(36 years old, France)

He is an experienced ruler who has kept second place in the world rank ever since the year after he became ruler. He is talkative and is known for the psychological bashing of his opponent. He is a very skillful ruler, and never overuses the ultimate system, but plans a methodical fight.

WORLD RANK

WORLD RANK NO. 1 AND NO. 1 IN AUSTRALIA
BLENYD

Height: 8.62 M (28.3 FT.)

Weight: 2.89 m. tons (3.19 tons)

Primary Dragon: None

Records: April 2014 G-135, W-134, L-1

BLENYD was created by the development staffs of the United Nations Artificial Life Security Committee particularly for fighting a beast, which has the best technological capability. He is the target of all the dragon players in the world. His ruler is Jeag Freed.

THE SECOND INCORPORATION

While challenging the world ranking games, the player must incorporate the wrestler with another wrestler. The first choice of a dragon in the domestic games determines the second choice of a dragon. Experiment with various dragons to come up with a favorite combination.

The player must complete the second incorporation before challenging the world champion.

MATCH MODE

This mode is for the game player who likes to play a simple fighting game and to operate many different beasts.

CHOOSE A BEAST

Match Mode lets the player choose a beast from ten unique beasts. Choose an opponent beast by using the Directional Button to the left and right and press the A Button to select.

The following are the beasts and their deathblow techniques.

FEDERICO

Deathblow: Tail attachment

LIMITED WARRANTY

Renovation Products, Inc. warrants to the original purchaser that the Renovation Genesis Cartridge shall be free from defects in material and workmanship for a period of ninety (90) days from the date of purchase. If a defect covered by this limited warranty occurs during this 90-day limited warranty period, Renovation Products, Inc. will repair or replace the defective cartridge or component part, at its option, free of charge.

This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering, or any other cause not related to defective materials or workmanship.

DO NOT RETURN YOUR RENOVATION GENESIS CARTRIDGE TO YOUR RETAIL SELLER. RETURN CARTRIDGE WITH A DATED PROOF OF PURCHASE to the following address. The cost of returning the cartridge to Renovation's Customer Service Department shall be paid by the purchaser.

Renovation Products, Inc.
Customer Service Department
987 University Avenue, Suite 10
Los Gatos, CA 95030

Repairs After Expiration of Warranty

If your Renovation Genesis Cartridge requires repairs after termination of the 90-day warranty period, you may contact the Renovation's Customer Service Department at 408-395-8375 during 9:00am to 5:00pm (Pacific Time). If they are unable to solve the problem by phone, they will advise you of the estimated cost of repair. If you elect to have the repair done, you'll need to return the defective merchandise, freight prepaid and insured against loss or damage, to Renovation's Customer Service Department with an enclosed check or money order payable to Renovation Products, Inc. for the amount of the cost estimate provided to you by them. If, after inspection, it is determined that your cartridge cannot be repaired, it will be returned to you and your payment will be refunded.

LIMITATIONS ON WARRANTY

Any applicable implied warranties, including warranties of merchantability and fitness for a particular purpose, are hereby limited to ninety (90) days from the date of purchase and are subject to the conditions set forth herein. In no event shall RENOVATION PRODUCTS, INC. be liable for consequential or incidental damages resulting from possession or use of this product.

The provisions of the limited warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts, or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you. This limited warranty provides you with specific legal rights. You may have other rights which vary from state to state.

Ys III

Return of the Wanderers

Years have passed since the swordsman Adol saved the kingdom of Ys from certain destruction. Joined by his companion, the ex-thief, Dogi, they set out for new adventures.

And just in time . . .

Bizarre tales of monsters and demons wreaking havoc throughout the Kenai Region reach our heroes. Dogi's hometown of Sarina is in the middle of the afflicted kingdom. He inspires Adol to help him rid the world of this new evil.

Join them as they battle the forces of darkness - Deep in a haunted coal mine, in the heart of an active volcano and on top of a blizzard swept peak. All the while uncovering clues to the identity of the malevolent force that is guiding the evil warriors of the Dark World.
