A young man and his uncle left their town in a caravan for a long journey. Everything the young man saw and heard was new and exciting to him. They trekked through many mountains and forests, and one day they came to a little kingdom. The kingdom was a well-known stopping place for travelers, and it was called the Kingdom of Salon.

His uncle stopped the caravan and told the young man, "Roy, this is as far as you can accompany me. The places we are going do not let anybody in but the merchants. Go to the Kingdom of Salon. Trust your own strength and create your own life. I will see you again in Johanna and expect you to be a strong, grown-up man then."

The young Roy bid his uncle and the caravan farewell as he stood alone on a hill overlooking a gate of the Kingdom of Salon. He proceeded toward the gate with light footsteps in anticipation of an adventure awaiting him.

Now a long, exciting journey begins for the eighteen-year-old hero.

At the first town, you meet your companions for your adventure. It is dangerous to go out of the town by yourself. First talk to the people of the town and gather the information. Select a character to talk to by moving the Directional Button (up, down, right and left) and press the A Button to converse.

SHOPS IN A TOWN

At first, Roy does not have much in the way of weapons, protective gear or money. As he gains his companions, he also gains more money, and he is able to shop at the weapon and protective gear shops. There are many more Shops in the town.

You can Save a level as well as regain HP and MP by staying at an inn. You can also regain HP and MP by staying at a hospital in the town.

FIGHT

Enemies will attack you without notice when you are in a field or dungeon. You have a choice of fight, magic, defense, or get-away. Which would you like to choose?

ENEMY ATTACK!

Each character must select an Icon to fight. Move a cursor to an opponent you selected by using the Directional Button and press the A Button. You may need more than one turn to get close enough to attack the opponent.

When you select Magic, choose one out of four directions (up, down, right and left) in which you wish to attack. You must be on the same line as your enemy, otherwise the Magic does not work.

For your defensive move, you can choose to escape by running around the screen or stay put. Either way, you gain your Defensive Power, which makes your character hard to damage.

Even if you select an Icon to escape, you may not be able to succeed every time; but, if one of your characters succeeds in escaping, the rest of the characters can also escape. Press the B Button to cancel all your commands.

HP:

During the fight, when characters other than the hero are attacked and their HP become '0', they disappear from the Fight Screen. When they return to the general screen, their HP shows '1'.
