## BIMINI RUN: THE STORY

*The sun drenched tropics, with islands flung like emeralds throughout the aqua sea. Trade winds cool this tropical paradise; palm-fringed beaches beckon. It is a place of romance. And intrigue. Dark secrets and danger lurk beneath idyllic skies: to succeed here, you must be strong and swift and smart.*

*Like your hero, Kenji O'Hara, the wealthy self-made adventurer. You like fast cars, fast boats and fast women - not necessarily in that order. You get your kicks from excitement. And that's just what you get!*

*Dr. Orca, dreaded international master of destruction, has kidnapped your twin sister and closest confidante, Kim. Flanked by an armada of killer boats and helicopters, they're hidden somewhere in a maze of islands.*

*So take the helm of your high speed power boat, the Banshee. With the help of your devoted friend Luka, you must rescue Kim and squelch Orca's plot to destroy the world with B.A.M Technology.*

*Will Luka's marksmanship and your skill at the helm be enough to cut through the swarm of powerful off-shore performance boats, choppers, and island warheads? Chart screens and vital messages help you stay on target, but only a mermaid can get you through the fantastical mire of the Bimini Zone!*

*Prepare yourself. This is no joy ride. You'll need every bit of skill and cunning you have. And something more: luck. Because nothing is quite as it seems in the Bimini Zone!*
