Light....Darkness....

Good....Evil....

The Baron, now in possession of the Lightstar Crystal, turns to find Prince Justin ready to do battle as the city is collapsing around him. The desperate hero lunges at Baron Dark to rescue the Crystal, but becomes locked in a deadly conflict. The titanic struggle splits the already weakened Crystal, unleashing its incredible power.

During this quest, you will have to fight your way through vicious foes in dark caverns, on a windswept mountain, through ancient temples and finally into the heart of the devastated Luminicity.

You are armed only with your noble heart and the StarSword, a powerful weapon which can be used with the power bestowed upon you by the Lightstar Crystal to defeat any foe.

So, brave warrior, take up your sword and prepare to do battle....the fate of Luminicity and all who live there is in your hands....

Araculan Temple that is teeming

with evil and horror. Mount your skybike and travel to Mudu for an encounter of the weirdest kind. Venture on to challenge Aracula if you dare!

Mission 3—Shriek's Alliance.

Baron Dark has learned of your success and is not pleased with it. He has sent another "friend" to greet you: Shriek!! Your journey will take you past the land

of Simiania, with inhabitants of ape-like creatures. Fly in the Gorgon Airship to find the Madam Shriek and then use your skills to defeat her!

Mission 4—Luminicity.

You are nearing the end of your quest and the Lightstar Crystal is within your grasp. Back to the homeland of Luminicity you have traveled for your final encounter within the Baron Manor. Sharpen

your fighting skills and agility, for they will be put to the ultimate test in your final battle against Baron Dark.

Good Luck warrior and may the power of the Lightstar Crystal guide you to victory!!!

Cave Creatures—Grotesque crawling crab-like things and swarms of vicious bats.

Mudu Inhabitants—Horrific, disgusting creatures that live inside the caverns of the huge Mudu worm.

Bosses:

Dagger—Espionage expert of the Skeleton Legion-(Level 1). Bad things come in small packages - and Dagger is no exception. All bones and no brains, Dagger carries out Baron Dark's dirty work, equipped with an arsenal of lethal weapons. A dangerous opponent when cornered.

Aracula—Arachno-assassin of the Skeleton Legion-(Level 2). When Baron Dark requires a one-skeleton attack force, he calls upon Aracula. Action speaks louder than words with this deadly assassin, who packs a vicious weapon in each of his six hands! Aracula is a whirling menace who answers only to Baron Dark.

Shriek (Level 3)—Evil temptress of the Skeleton Legion-(Level 3). This once-beautiful woman is proof that beauty may only be skin deep, but evil is in the bones. With a piercing cry that devastates enemies, Shriek is dangerous by herself, but when joined by her skeleton dragon Crossbone, she is nearly unstoppable.

Baron Dark (Level 4)—Powerful warlord of the Skeleton Legion-(Level 4). The sinister leader of all the Skeleton Warriors, Baron Dark is the ultimate evil. When the Crystal shattered, Baron Dark became a living skeleton. His evil heart gives him the power to turn others with evil hearts into Skeleton Warriors. He will stop at nothing to obtain the other half of the Lightstar Crystal. Are you skilled enough and powerful enough to stop him?

Hints:

Brave and fearless warrior, now that you have been chosen to help in the fight, it is up to you to help defeat Baron Dark and his treacherous army of Skeleton Warriors. Your ultimate mission is to help retrieve the Lightstar Crystal and lift the veil of darkness that has engulfed your kingdom. Your task will not be an easy one, but with this, the wisdom of the Light, you will surely triumph over the Darkness.

- Be sure to finish off the skeletons you kill by collecting their heartstone.
- Use the Skybike bonus levels to their full advantage. Since you don't lose any lives when you die on these levels, get as many power-ups as you can - don't worry about taking damage or killing off skeletons.
- Be sure to search for secret bonus rooms - a treasure trove of power-ups await the lucky finder.
- Vary your sword attacks. Often an attack that is very effective against one kind of enemy can be a bad choice when fighting another foe. Experiment to find the best attack. Similarly, find the special weapon that is most effective for the situation. Certain attacks work better at certain times - learn which ones are the best for you.
- Prince Lightstar's Downward Slash is a particularly deadly attack. Mastering its use will prove to be to your advantage.
- Use Prince Lightstar's projective attacks only to kill foes at a distance, or when fighting the end bosses. These weapons are limited to the number of heartstones you collect, so conserve them carefully.

- Prince Lightstar can duck under many projectiles. This can sometimes be more advantageous than blocking such an attack.
- Blocking is a crucial skill to master. A skillful player can use a combination of attacking and blocking to defeat difficult opponents.
- The shield power-up offers incredible protection, but lasts for only ten seconds. Save the power-up for a moment of deadly peril.
- Use the Run ability to dodge falling boulders, and gain extra height and speed for tricky jumps.
- On the skybike levels, use your heat-seeking missiles only for distant enemies - remember that you only have as many missiles as you collect heartstones.
- If you're having trouble with an end boss, keep trying. Study the pattern of your foe. Does he attack a certain way each time? Does he move in a predictable fashion? These clues, and your noble heart, can help you defeat the strongest of enemies.

Now you have acquired the knowledge necessary to help you vanquish your foes. Go forth, noble warrior - and may you fight valiantly!
