GAME MODES

There are 3 modes of play and 2 setup modes for Street Fighter Alpha 2. After a battle, the win/loss screen appears. At the continue screen, press the START button before the time reaches zero in order to continue. To bypass the continue screen and end the game, press any button other than the START button. (Note: Turning SHORT-CUT to "on" in the OPTION MODE bypasses the MODE SELECT screen. See page for more)

To adjust your button configuration during gameplay, press the A, B, or C button to pause the game. Then press the SELECT button.

Select CONFIGURATION from the menu to adjust your buttons, CONTINUE to return to the game or QUIT to return to the character select screen. When configuring your buttons, use the Directional Button to highlight the function, then press the button you want to perform that function.

SURVIVAL MODE

This one-player game tests just how good a street fighter you really are. Select a character and fight through as many opponents as you can with a single vitality meter (it does not reset following each match). Each match is single-round and the Super Combo meter remains at the same level following each match (it does not reset).

Once your vitality meter reaches zero, the game is over. You cannot continue, a second player cannot join in and Auto mode is not available.

ARCADE/VERSUS MODE

ARCADE MODE

This mode is the popular arcade mode, where you select a Street Fighter character and fight your way through 8 other computer-controlled opponents. It is a one-player game, but a second player can join in at any time. Press the START button on the opposite controller to join in. The character select screen will appear.

From the title screen, press A, B, or C to see the MODE SELECT menu. Use the Directional Button to highlight this mode, then press the START button to select it. You will then see the character select screen. Use the Directional Button to highlight a character.

MANUAL-You must perform all blocking functions, and Super Combos must be performed using the full instructions outlined in ALPHA WARRIORS (see page 10-27).

AUTO-Auto mode offers 2 features for players:

Simple Command-You can execute Super Combos by simply pressing 2 buttons simultaneously. Press Light Punch and Light Kick simultaneously for Super Combo #1. Press Medium Punch and Medium Kick for Super Combo #2, and press Hard Punch and Hard Kick for Super Combo #3. If your character has only 2 Super Combos, #2 is executed even if you enter the command for #3. Only Level 1 Super Combos are available in AUTO mode.

Auto Guard-Your character will block automatically unless you are attacking. The number of available auto guards is unlimited. Remember that your character will take damage when blocking in this mode.

Note: Your opponent can block Super Combos in the air while you are in AUTO mode.

V.S. MODE

V.S. MODE is the classic 2-player contest. Use the Directional Button to highlight this from the MODE SELECT screen and press A, B, or C to select it. You will then be presented with the character select screen. Select character, color, game speed and MANUAL/AUTO in the same manner as the ARCADE mode.

TRAINING MODE

TRAINING MODE

This mode allows you to study and practice special moves, Super Combos and Custom Combos. Your opponent will not block for the first hit, but will block for the following hit. Therefore you can easily determine if you can execute the combo successfully. After a certain amount of time, the opponent will not block your attack. The Super Combo Level Gauge is fully charged, up to Level 3, and will be consumed as you execute Super Combos and Custom Combos. It will re-charge after a certain amount of time.

At first, select your character and your opponent character. The Training Main Menu will then appear. You will see the following options. Use the Directional Button to highlight the option, and press START to select it:

- NORMAL MODE:** No Time Limits
Opponent's vitality does not decrease when hit
No combo replays
- RECORDING MODE:** Time Limits applied
Opponent's vitality decreases when hit
If opponent is KO'd, time runs out or combo is successful, a window will appear where you can choose to replay the combo or continue practice
- REPLAY:** Replay your training fight
- CHARACTER CHANGE:** Change your character and your opponent character
- ACTION:** You can choose opponent's action from following 3 options:
STAND-Character always stands
CROUCH-Character always crouches
JUMP-Character repeatedly jumps
- SPEED:** Select from 3 speeds
- GAUGE:** Changes amount of charged Super Combo meter
- If you press START button during practice, you pause gameplay and a window appears with the following options:
- CONTINUE:** Returns to practice
- KEY CONFIG:** Allows you to configure your control buttons
- MENU:** Returns to Main Menu
- QUIT:** Quits Training Mode

OPTION MODE

To adjust the options in your game, from the Street Fighter Alpha 2 MODE SELECT screen, use the Directional Button to highlight OPTION and press the A, B, or C button. Then use the Directional Button to highlight an option. To return to the MODE SELECT screen, press START.

DIFFICULTY-There are 8 levels of difficulty available for ARCADE MODE. Adjust the number of stars for the difficulty from 1-8 (Low to High).

TIME LIMIT-You can set the time limit for the round.

ROUNDS- You can adjust the number of rounds per match.

DAMAGE-The level of damage can be changed from 1 to 4. This determines how much damage you inflict and how much damage you receive.

TURBO- You can adjust the game speed here between 8 levels of TURBO. Adjust the number of stars for the level you want. The more stars that are outlined, the faster the level of TURBO you will select.

SHORTCUT-Set this to "on" and you can bypass the MODE SELECT screen in ARCADE MODE and jump right to the character select screen.

PLAYER- You can switch each player between Human and COM (computer) in VS. MODE only.

SCREEN- This changes the width of the game screen. Choose between SATURN and ARCADE. Depending on your TV, the entire screen may not appear while set in ARCADE mode.

SOUND-Adjust the sound on your game for stereo or monaural sound, depending on the capabilities of your sound system. Background Music (BGM) switches the music between Remix and Original.

KEY CONFIGURATION-You can choose any button for your punch/kick function.

BACKUP

This allows you to load or save high score data and options settings. From the MODE SELECT screen, highlight BACKUP and press START, A, B, or C. Select SAVE DATA or LOAD DATA and press START, A, B, or C. Your Saturn will automatically SAVE or LOAD the data.

ILLUSTRATIONS

Now you can view the complete art gallery from the Street Fighter Alpha series! Highlight this from the MODE SELECT screen and press START, A, B, or C. You will see the first picture in the series of 100 pieces of hand-drawn art used in Street Fighter Alpha and Street Fighter Alpha 2. Use the Directional Button to change the number in the lower left corner of the screen, then press START, A, B, or C to load the piece of art. To return to the MODE SELECT screen, press START until EXIT appears. Highlight EXIT and press START A, B, or C.

GENERAL MOVES

BLOCK/AIR BLOCK: Press Directional Button away from opponent. You can even block in mid-air.

GRAB/THROW: Press Directional Button toward opponent, then press either Medium or Hard Punch or Kick button. Some characters may be able to execute a grab or throw move automatically.

DEFENSIVE FALL: Use the above throw command to reduce damage from throws where your character safely falls to the ground.

RECOVERY/ESCAPE: You can recover from dizziness more quickly by pressing back and forth on the control pad and by pressing the attack buttons rapidly. You can escape grab moves in this manner as well.

TAUNT: Once per round you can taunt your opponent by pressing L and R together.

ALPHA COUNTER: When you block your opponent's attack, press the Directional Buttons ←↙↓ in a smooth motion, then press a punch or kick button. This will perform an Alpha Counter attack, which is a quick counter move against your vulnerable opponent. Each character has 2 different Alpha Counters depending on which button you press. Alpha Counters consume 1 level on your Super Combo gauge.

AVOID BEING FLOORED: When you are hit by a knock-down move (Dragon Punch, Leg Throw, etc.) press the Directional Buttons ←↙↓ in a smooth motion, then press any punch button. Your character will roll forward and avoid being floored by your opponent's move.

SPECIAL MOVES

Street Fighter Alpha 2 offers many other great features. Here is a description of each:

SUPER COMBO LEVEL GAUGE- Each time you execute normal and special moves, your Super Combo Gauge will build up. Your level will increase when the gauge reaches certain points, then you will be able to perform Super Combos, Custom Combos and Alpha Counter moves.

When performing Super Combos, the amount of damage inflicted by a successful combo can be controlled depending on the buttons pressed. With the Super Combo Level Gauge at full power (Level 3) you can perform the Super Combo using 1, 2 or 3 attack buttons simultaneously to increase or decrease the number of hits inflicted. The more buttons you press simultaneously, the more damage will be inflicted but more power will be consumed from your gauge.

CUSTOM COMBOS- Street Fighter Alpha 2 gives you more ways to play! Create your own rapid-fire assault of multi-combinations that will pulverize your opponent. When your Super Combo Level Gauge reaches Level 1 or above, you're ready to do a Custom Combo. Here's what to do:

Press: 2P + AK or 2K + AP

This activates the Custom Combo system. You will see your character explode into a Custom Combo. Above the Super Combo Level Gauge will be the Custom Combo Timer. You only have a certain amount of time to create the Combo. Once the Timer reaches zero, the Combo will end.

While in the Combo, execute any punch, kick or special move to make up your multi-hit combination. Super Combo moves are not available in Custom Combos.

The Alpha Warriors

The following is a description of each character and a short list of moves beyond the basic punches and kicks. The moves are described in this manner:

The directions you need to press the Directional Button to perform the move are described first (moves must be done in a smooth, quick motion). Following the move is the list of Punch or Kick buttons you must press.

REPAIRS AFTER EXPIRATION OF WARRANTY:

If the CD-ROM develops a problem after the 90-day warranty period, you may contact the CAPCOM Consumer Service Department at the phone number noted previously. We recommend sending your CD-ROM certified mail. CAPCOM will replace the CD-ROM, subject to the conditions above. If replacement CD-ROMs are not available, the defective product will be returned to you and the \$20.00 payment refunded.
