### PROFILE MENU

See next page.

## Create/Save Profile

NBA Ballers: Rebound lets you save accumulated data to your Memory Stick Duo™. We highly recommend using a memory stick to enjoy the many features you'll find in this game.

Each time you start the game on your PSP™ (PlayStation®Portable) system, the game will read your memory stick, making it available for saving data.

At the Profile Menu, you can Save or Create Profiles. If you choose to create a Profile, the in-game keyboard will appear. Use it to spell out the name you want to use, then select **END**. It will then be available for use as a user profile.

## Load Profile

If you already have a created user profile, it will be listed for selection when you choose **LOAD PROFILE**. The Status column will let you know if the data has been saved or needs saving. Simply highlight the unsaved data, and press the **X** button.

## Unload Profile

Whenever you have a profile loaded, you'll have the opportunity to work with it. If you don't want it loaded, select this option, then select the profile. You'll be prompted to unload the entire profile.

As you save more and more data to the memory stick, you'll need to keep track of the space available on the memory stick.

The Profile Menu appears in several instances within the game, so you can always refer to this portion of the manual for reference.

It is advised that you do not insert or remove peripherals or a memory stick once the power is turned ON. Make sure there is enough free space on your memory stick before commencing play.

The Inside Stuff Screen is the place to go to use the Credits you've earned to sign players and acquire cribs or to create a player. Use the directional buttons to select options, then press the **X** button to make selections. In some cases, menus will require pressing the L button and R button to cycle categories.

Before entering the Inside Stuff menu, the Profile screen will be displayed. If you have a profile created already, select it to go to the Inside Stuff menu. If you don't have a profile, select **CREATE NEW PROFILE**. Use the directional buttons to spell out the name of your profile, then select **END**. Select the new profile to go to the Inside Stuff menu.

Here's the rundown:

## SIGN A BALLER

Got a lot of Credits burning a whole in your pocket? Use this option to unlock some of your favorite NBA players. They'll then be available for Versus, 1vs.1vs.1 and TV Tournament game modes. You'll notice that some players are unlocked by default.

## CUSTOM BALLERS

This is your opportunity to create the kind of Baller you'd like to use in the game. Once created, this Baller will be selectable in Versus, 1 vs. 1 vs. 1 and TV Tournament game modes. It takes four steps to customize your Baller:

### Step 1: Fill in the Details

For both Name options, select your Baller's First or Last name, then press the **X** button access the keyboard. Spell out the names you'd like for your Baller, then select **END** to return to the previous menu. Press the **START** button to advance to the next screen.

For the rest of the options (other than **NICKNAME**), press the directional buttons **←** or **→** to modify the setting. For the **NICKNAME** option, press the **X** button to view and select from a preset list of available nicknames.

**Step 2: Define Your Look**

Highlight an option, then press the directional buttons ← or → to modify the setting. As you define your Baller's look, you'll see the changes take place on the screen. Press the START button to advance to the next screen.

**Step 3: Develop Your Skills**

This option allows you to distribute points to specific player skill attributes. You decide how strong or weak your created player's skills will be. Once you've acquired some Credits, you can come back to this option, and purchase more points to boost a player's attributes.

By default, you'll start out with 400 points to distribute to your created player. Highlight an attribute, then press the directional buttons ← or → to increase or decrease the points given to an attribute. Repeat this process to distribute the points the way you want.

You can only distribute a maximum of 35 Attribute Points to each category during the creation phase. Once you're finished adjusting points, press the START button to advance to the next screen.

**NOTE:** In Rags to Riches, the attributes must be earned on the court. You may not acquire them with credits.

**Step 4: Review Your Work**

Before you finish customizing your Baller, review your work. If you need to go back and change something, press the Ⓞ button to return to a previous menu.

**MODIFY BALLER**

Once you have created and saved your Baller, this menu will be displayed. It's also displayed if you select a previously saved Baller from the Custom Ballers option. Use this menu to make changes to your saved, customized Baller.

**Attire, etc.**

Keep your Baller looking sharp by changing his facial features, clothes and his bling. Select an item to view available (selectable) and unavailable items (in grey). Not all items are free, so the amount of Credits you'll need for a particular item is displayed.

**Skills**

As you gain more Credits, you can use this option to add more Attribute Points to your Baller's skills. This will let you continue to make him a better player on the court. See **STEP 3: DEVELOP YOUR SKILLS**, pg. 10).

**NOTE:** In Rages 2 Riches, your skills will upgrade automatically based on how you play.

**Rides, Friends, Etc.**

Once you've attained some Credits, come back and check out this option. You can turn in your Credits for an entourage, some cool rides or set up some **SPECIALS** that will spice up your play on the court.

**SPECIALS**

Highlight an ability, then press the ⊗ button to activate it. Press the directional buttons ← or → to turn a Special On or Off. Here are the Specials:

**HOT SPOT** - Pick a spot on the floor where your scoring chances increase.

**FIRE MODE** - Make it possible for a player to catch fire.

**BACK-IN MODE** - This mode allows you to post up your opponent.

**LEGAL GOALTENDING** - You're allowed to goaltend any shot.

**EXTRA MOVES** - Pull off moves not available in the default moves list.

**PUT BACK DUNKS** - Allows you to Dunk your missed shots.

**STUNT DUNKS** - Perform some inhuman dunks.

**PASS TO FRIEND** - Pass to a friend standing off-court then get it back.

**2X JUICE REPLENISH** - Your Juice replenishes twice as fast.

**SUPER BLOCKS** - Get way up there to block shots.

**ALLY-OOP** - Perform amazing Ally-oops.

**NOTES:**

- These moves must be purchased before you can use them.
- A good way to experiment with Specials is to pick any NBA player that has the Special you want to try.

## ACQUIRE A CRIB

Use your growing Credits to acquire a home. Press the directional buttons  $\uparrow$  or  $\downarrow$  to change homes and the background will change, giving you a nice look at your new crib. You'll notice that some cribs are already unlocked by default.

## GARAGE

It's time for a new ride. Use your accumulated Credits to select a new car. Press the directional buttons  $\leftarrow$  or  $\rightarrow$  to cycle the cars, then press  $\uparrow$  or  $\downarrow$  to select a color. Colors will only be selectable if you have enough Credits to select the car.

## COLLECTIBLES

NBA Ballers: Rebound includes a gallery of images you can unlock and view. Choose MAGAZINES, FRIENDS, BIG SHOTS or MIDWAY, then work toward unlocking the collectibles. To find out what is required for unlocking an image, highlight the blank image and press the  $\otimes$  button. Text will describe what is required to unlock the image. Completing image sets unlocks certain players.

## BALLER'S CINEMA

The Baller's Cinema includes the OPENING MOVIE, a FILM VAULT, CREDITS listing the names of the people who worked toward creating NBA Ballers: Rebound, as well as some DVD EXTRAS.

Baller's Phrase-ology can be found in Strategy Guides, Magazines, the internet or with a little experimentation on your part.

## AUDIO OPTIONS

Highlight an option, then press the directional buttons  $\leftarrow$  or  $\rightarrow$  to increase or decrease the GAME FX, PLAYER CHATTER, IN-GAME MUSIC, ANNOUNCER, AMBIENCE, CROWD, MENU MUSIC or PAUSE MUSIC. You can also change the Audio Output to STEREO or MONO.

Some of the games included in NBA Ballers: Rebound are multiplayer games. Select this option to connect to the Lobby. Once in the Lobby, choose another player to initiate the connection process.

**NOTE:** Before you can connect with friends via Wireless LAN, each PSP™ (PlayStation®Portable) system must have their WLAN switch turned on. For more information on Wireless LAN, see the documentation included with the purchase of your PSP.

## TV TOURNAMENT

This is where you'll unlock NBA players by winning tournaments. The opponent at the top of each ladder is unlocked to your roster once you defeat him. First, you'll need to select an episode. Each episode has a different set of tournament opponents and a prize.

### Enter Profile

Before entering the tournament, the Load Profile screen will be displayed. If you have a profile created already, select it to go to the Tournament screen. If you don't have a profile, select **CREATE NEW PROFILE**. Use the directional buttons to spell out the name of your profile, then select **END**. Select the new profile to the Tournament screen.

### The Tournament

The Tournament screen displays three NBA players who represent your final opponent. Each final opponent represents an episode of the tournament. Press the directional buttons **←** or **→** to select an episode. Details on the episode are displayed. Press the **⊗** button to make a selection.

At the Baller Selection screen, press the directional buttons **↑** or **↓** to scroll through available in the game, then press the **⊗** button to select. Press the **L** or **R** button to toggle statistical information. Press the **△** button to preview your opponents.

At the Match-Up screen, you can enter codes for power ups or special abilities. See **ENTERING CODES**, pg. 16. As you win matches, you'll continue to play until you've either lost a match or won the tournament. As you collect prizes, remember to use the Inside Stuff option to use your winnings (see **INSIDE STUFF**, pgs. 9-12).

This game mode is NBA Ballers: Rebound's career mode where you can create a Baller, then play games to earn Credits and prizes. You'll then spend those earnings to live the good life with mansions, cars, jewels and even an entourage, but you'll need to earn it on the court!

Before you can get started, you'll need to **CREATE** or **LOAD** a profile. If you have a profile created already, select it to go to the Rags to Riches screen. If you don't have a profile, select **CREATE NEW PROFILE**. Use the directional buttons to spell out the name of your profile, then select **END**. Select the new profile to go to the Rags to Riches screen.

## REVIEW EPISODE

This option will give you an opportunity to review your progress in Rags to Riches. It includes selectable movies that you've unlocked during the progression of your Rags to Riches story.

## CUSTOMIZE BALLER

This option allows you to spend your riches to shed those rags. As you win matches and progress through the story, your earned Credits will be displayed at the bottom of the screen. See **CUSTOM BALLERS**, pg. 9, for details on customizing your Baller.

## Play-Per-View

The Play-Per-View screen is used to get an overview of your progression through the Rags to Riches story. It displays the current Tournament you're playing in, as well as past and upcoming tournaments. Press the directional buttons **←** or **→** to highlight each tournament. Information about each tour is displayed below.

### NOTES:

- You can only select the current tournament in which you're involved. You can't select previous or future tournaments. The Play-Per-View screen is a nice map of the tournaments you can use to check your progression.
- In Rags to Riches mode, your Ballers attributes automatically upgrade, based on the way you play after the initial attribute assignment. For example, to be a better 3 pt. shooter, you must attempt and make a lot of 3 pointers.

Prior to a **VERSUS** or **1 VS 1 VS 1** game, you'll need to select a **Baller** and a **Crib** for your match. Once you've done that, you can enter special codes just before the match begins.

## BALLER SELECT

Press the directional buttons **↑** or **↓** to scroll through the available NBA Ballers. Press the **□** button to cycle between the divisions, then press the **⊗** button to make a selection. Do the same to choose your opponent if you're playing the CPU. The **Select a Crib** screen will appear.

## ENTERING CODES

Just before the game begins, there's a brief opportunity to enter special codes. Codes can be entered by displaying three specific icons, along with pressing the directional buttons **↑**, **↓**, **←** or **→**.

Press the **□** button (top), **△** button (middle) and **⊙** button (bottom) to cycle the three code icons. When the icons you want are displayed, press the directional buttons **↑**, **↓**, **←** or **→**. If you have the correct combination of icons and the correct direction on the directional buttons, a code will be displayed and entered. If you enter wrong, the icons will reset and no code will be entered. You can enter as many codes as time allows.

**NOTE:** Special codes can be found in strategy guides, magazines, the internet or with a bit of experimentation on your part.

The Display has a lot of information that may or may not need explanation. Nonetheless, here's the rundown:

## Fouls

You have five fouls to give. After the 5th foul, your opponent will go to the Free Throw line.

The House Meter builds as you make moves and shots. When the House Meter fills completely, you can "Bring Down the House". To "Bring Down the House", press the **L** button, **R** button and the **△** button as you move toward the basket.

## Jackpot

As you and your opponent make moves, you'll accumulate credit that will be awarded to the player that makes the shot. If you build the Jackpot and miss the shot, the Jackpot will remain until someone does hit the shot. The winner of the match walks away with all of the credits in his match earnings.

## Juice

This is your turbo boost meter. As you use your Juice, the meter will diminish. It will recharge when you're not activating your Juice.

## Rounds Won

Blue circles appear when you win a match round.

## Shot Clock

This meter will be displayed once you've gotten down to ten seconds.

At any time during a game, press the **START** button to view the **Pause Options** screen. Use it to make adjustments to your game or view a replay of the most recent game action or make changes to the game's options. You can also use it to see your players in detail.
