Prologue

Once upon a time in a place far away there lived a young girl. Her dream was to become a magnificent magician, and her name was Amitie. She studied with her friends in Professor Accord's class at the Magical Academy.

One day Professor Accord's flying cane went missing!!

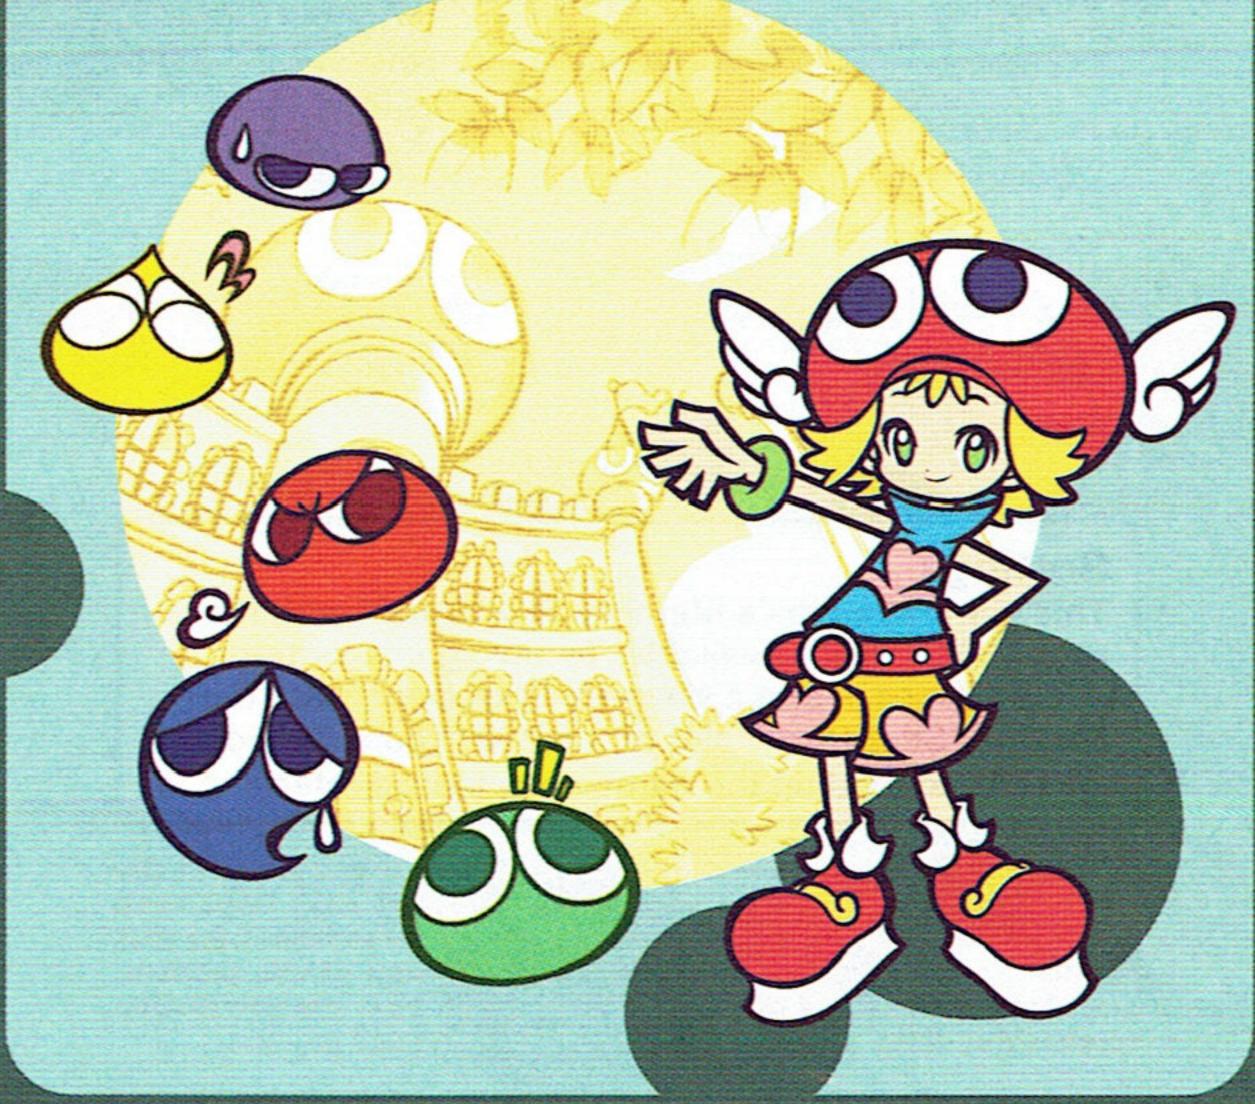

She said she'd give a reward to whoever found it.

I wonder what the reward is?

Let's go, before someone else finds it before us!

Everyone is so excited!

And that's how Amitie's and friends' little adventure started...

How to play

This is an introduction to the basic rules and the game screen.

Game rules -The basics -

• What is a Puyo?

A Puyo is a strange jelly-like blob that bursts when 4 or more are combined together.
Puyos exist in 5 different colours: red, blue, green, yellow, and purple. They fall in groups of 2, 3 and 4.

• Group of 3

A set containing 3 Puyos of the same colour, or 2 the same + 1 different. The set can be rotated by pressing the ② or ② button.

Group of 2+1

Group of 3

• Group of 4

A set containing 4 Puyos of the same colour (Giant Puyo), or 2 pairs of the same coloured Puyos. The colour of the Giant Puyo can be changed by pressing the ② or ③ button.

2 Puyos + 2 Puyos of the same colour

Giant Puyo (Group of 4)

Eliminating Puyos

By placing 4 or more Puyos of the same colour adjacent to each other, they can be eliminated. By moving, rotating, and using quick drop, you can carefully arrange them as they fall to make them burst and disappear.

Align Puyos.

and they burst!

The Game Screen - Single Player-

The left side of the screen corresponds to Player 1, and the right side to Player 2 or the computer. This screenshot is taken from "Puyo POP with Friends".

• Warning Puyos

Nuisance Puyos sent by opponents will appear here as Warning Puyos. (→p.10)

2XX

When the Puyos pile up to the two red XX's at the top of the screen, the game is over.

3 Next Puyos

• Game Over

When the Puyos pile up to the two red XX's at the top of the playing field, the game is over.

When the Puyos pile up ..

Game Over!

Nuisance Puyos

Points are earned by eliminating Puyos. Depending on the number of Puyos eliminated and the chain size, a number of Nuisance Puyos can be sent to the opponent's side.

and Nuisance Puyos fall on the opponent's field!

Professor Accord's advice

Eliminating more than one set of Puyos simultaneously, or creating a chain of eliminations will earn you extra points and send more Nuisance Puyos to your opponent.

Eliminating Nuisance Puyos

By eliminating a Puyo next to a Nuisance Puyo, the Nuisance Puyo will be eliminated. When Nuisance Puyos are grouped together, a Giant Nuisance Puyo may be formed.

Eliminate an adjacent Puyo ...

The nuisance Puyo will also disappear!

Simultaneous eliminations

Connect 4 or more same coloured Puyos to make them burst and disappear. Eliminate 2 or more different coloured groups of Puyos simultaneously to earn extra points. The more Puyos placed together, the more points earned.

Chains

A chain results when a group of Puyos is eliminated, and the Puyos above it fall to create another set and disappear. If the Puyos are stacked well, it is possible to link together even more chains.

First set of Puyos eliminated...

Chain of 2 eliminations!

Chain of 3 eliminations!

The longer the chain is, the more Nuisance Puyos sent to your opponent.

• All Clear

This is when all Puyos have been eliminated and a set of pre-arranged rows of Puyos appears. If the screen is cleared in Fever Mode, an even bigger set of rows of Puyos will appear.

Eliminate all Puyos ...

a set of pre-arranged Puyos appears

Professor Accord's advice

After clearing the screen and entering Fever Mode, be ready to link multiple chains using the bigger pre-arranged sets.

Game Rules - Advanced -

Warning Puyo

Before Nuisance Puyos fall, Warning Puyos will be displayed at the top of the

playing field indicating how many to expect.

Warning Puyos (Upper) and the number of Nuisance Puyos (Lower) to expect

<u>@</u>	600	600	00	90	66
Small Puyo	Medium Puyo	Rock Puyo	Star Puyo	Moon Puyo	Crown Puyo
1	6	30	180	360	720

Offsetting

When a Warning Puyo is displayed, it can be offset by sending a Nuisance Puyo to the opponent. The number of Nuisance Puyos you send cancels the same number of Warning Puyos. The indicated Warning Puyos can be sent back to the opponent by attacking with a greater number of Nuisance Puyos.

Attack with Nuisance Puyos before Warning Puyos become falling Nuisance Puyos in your field...

Offset Warning Puyos
with the same number of
Nuisance Puyos!

Professor Accord's advice

When you offset warning Puyos, the Nuisance Puyos won't fall in your playfield plus the Fever Gauge will rise. When opponents offset your Nuisance Puyos, your Fever Time will increase.

Fever Mode

As you offset Warning Puyos, your Fever gauge will fill up. Once your gauge is completely full, you will go into Fever Mode. Your Fever Time will increase when the opponent offsets Warning Puyos.

Once your gauge is completely full ...

Fever Mode Screen

In Fever Mode, you'll begin with pre-arranged sets of Puyos. Make the best use of falling Puyos to create the biggest chains possible. When time runs out, normal play will resume.

Fever Mode Starts

Pre-arrangedsets of Puyos

Fever Time

Sets will continue to appear until the time runs out

Professor Accord's advice

In Fever mode, some falling Puyos may not allow you to create a big chain.

A new pre-arranged set of Puyos will replace the existing one even if you make only a small chain so be careful with the placement of Puyos.

Characters

Introducing the cast of characters in Puyo POP FEVER. Each character has their own special battle skills. Check the following strengths and weaknesses to select your own character.

Amitie

The main character. You play as Amitie for the RunRun and WakuWaku courses.
She is a bright and cheerful girl who goes to the Magical Academy. She has a good attack balance and is a good all-rounder.

Raffine

The second main character, who is in the same year at the Academy as Amitie. You play as Raffine for the HaraHara course.

arrogant but is especially powerful with long chains. She is a character for the expert player, and is particularly good in Fever Mode.

Professor Accord

A teacher at the Magical
Academy. Professor Accord is
very ladylike and works
at her own pace. She
teaches the game rules for
the RunRun course. She is especially
powerful with long chains and is
a character for expert players. Her
puppet cat's name is Popoi.

Klug is an excellent pupil in the same year at the Academy as Amitie. He is said to be involved with black magic and be fascinated with its powers. Klug is a very powerful character for expert players who are good at making long chains.

Rider

In the same year at the Academy as Amitie. Rider is very self-conscious of the small horns on her head so she is quite shy and timid. She is not very powerful in Fever Mode but her normal attack strength is very good. Rider can be beaten more easily than others in Fever Mode.

In the same year at the Academy as Amitie although he doesn't look like it. Tarutaru is kind and gentlemanly unless you make him ANGRY!

He is strong and well-built so even a small attack causes big damage to his opponents, but he is not so powerful with long chains.

Oshare Bones

Very particular about clothes and likes to make fun of others.

Oshare Bones' normal attack is not strong but in Fever Mode he can bounce back and win.

Although the Puyo falling speed is slower, groups of 2 Puyos are more frequent so it is easier to make chains.

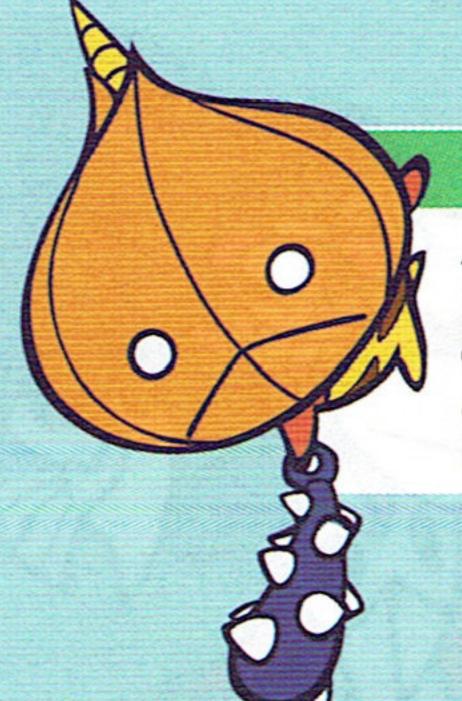

A frog in an acorn cup who mysteriously manages to jump around normally. Dongurigaeru can only say "Keron". He is good at lots of small attacks and is easy to handle - making him good for beginners.

The Frankensteins

Father and son Frankenstein.
They claim to be evil, but no one is sure if they're joking or not. The pair are good at constant small attacks.
Long battles work against them so try to win a match quickly.

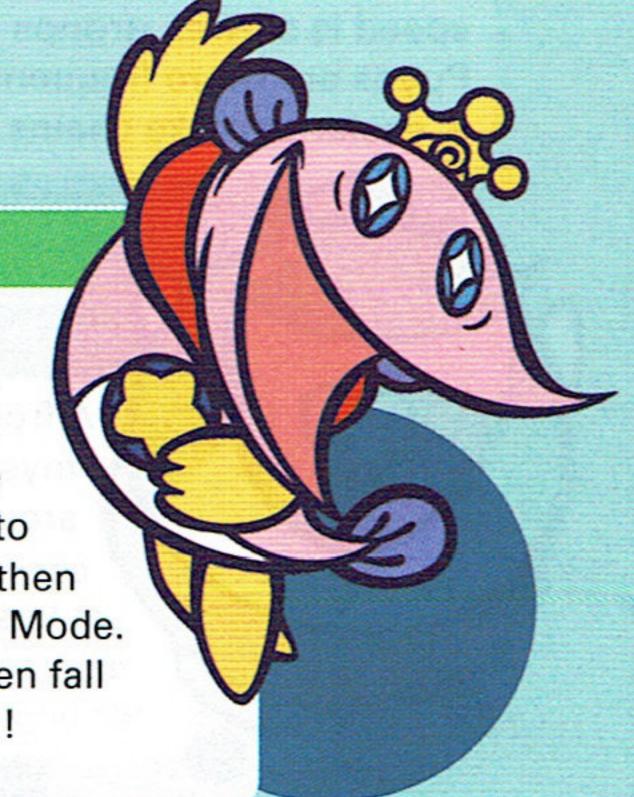

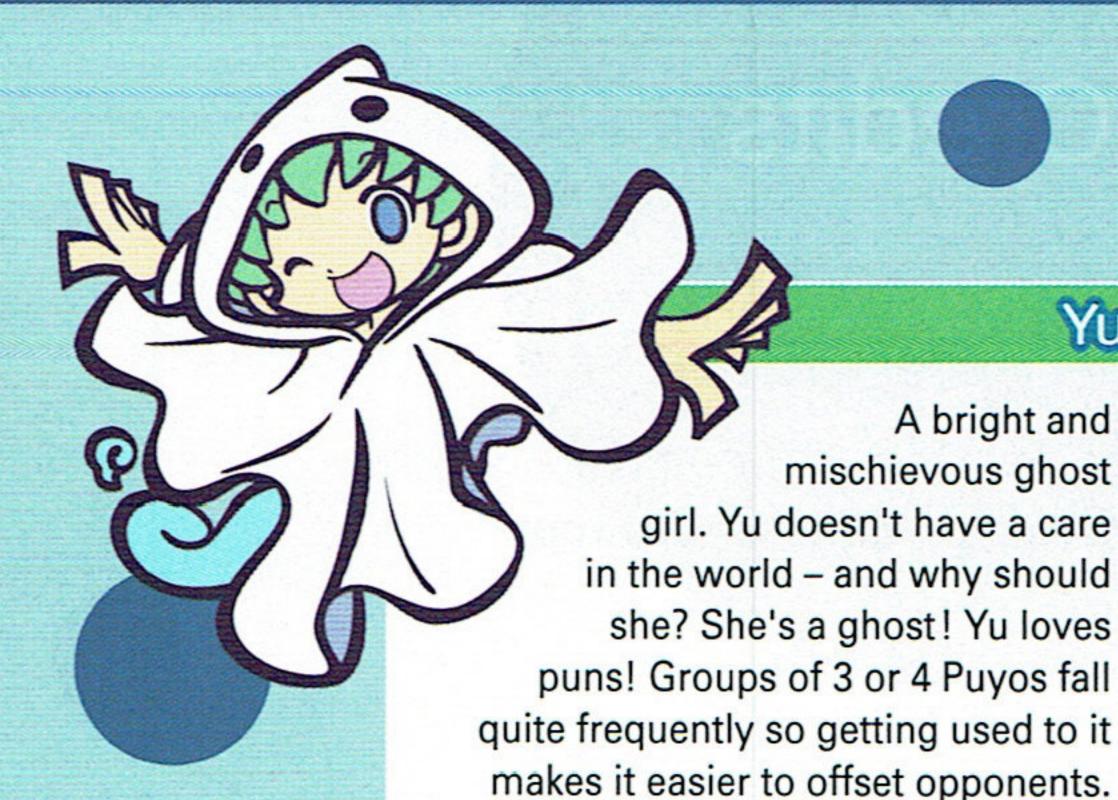

Onion Pixy

A pixy with an onion head. Onion Pixy follows people relentlessly chanting "Onion!". His normal attack is weak so skilfully guide him into Fever Mode to compete.

Ocean Prince

He calls himself the Ocean
Prince and speaks with
an upper class accent. Like
Oshare Bones, he is likely to
spend a while behind and then
make a comeback in Fever Mode.
Groups of 3 or 4 Puyos often fall
with him- so get used to it!

Hohow Bird

His favourite phrase is "Ah-ha!". He likes to portray himself as a comic book hero. Except for when making big chains, his normal attacks are very weak. From the start, you should be aiming to make big chains.

Arle

Yu

The main character in the previous Puyo POP series. This time she is a stranger who has strayed from her own world. Arle is very well balanced and good at making big chains, but only groups of 2 Puyos fall for her.

As well as these characters, a familiar face may appear!!
