OUR STORY

BACK IN THE MERRIE OLDE DAYS...

... before Uzies and e-mail, dragons were everywhere. Nowadays, dragons have all become hermits, lounging in caves, downloading graphics of luscious cyber-nymphs and breathing heavily into cell-phones. But back then, dragons ruled!

AS THE STORY OPENS...

... we meet Flicker, a young, ambitious, intrepid... well, *oddity*. He's *inventive*. He *Puts Things Together*, and he *Makes Devices*, and they help him *Solve Puzzles*.

Flicker is the lowliest dragon in Camelhot, the center of dragondom, and home of the most delicious *diamond frappé* in the known world.

Flicker is *in amore* with Princess Flame, King All Fire's daughter. Flame has everything a dragon dude could want: eyes like jewels, a voice like silk, and a figure that rivals the most advanced siegecraft in size and motion.

Her father, King All Fire of Camelhot, is retiring.

To ensure his kingdom's future, he's decided to hold a royal tournament. The winner will naturally be the worthiest dragon in the kingdom, and upon that champion King All Fire promises to bestow his crown and his daughter's hand in marriage.

THE PLOT THICKENS...

However, just at this moment, a dire evil in the form of Sir George the Human rears its ugly head. To everyone's disgruntlement, Sir George announces his own entry in the tournament: the mysterious Black Dragon.

In what he hopes is a checkmate move, King All Fire sends the Dragon Knights to investigate this unknown upstart.

And he sends Flicker to do the dishes...

Q: WHY DO YOU NEED ACTION ICONS?

A: Because you always want to:

- **E**xamine everything in the room to see what items you might want to take with you. **E** is for **E**ye and **E**xamine.
 - **F**ollow every pathway, climb every mountain, ford every . . . whoops, wrong dragon. . . **F** is for **F**oot, **F**ollow, beat **F**eet.
 - **J**ive-talk with everybody. The ditziest dame or crabbiest workman can often spill a clue or bestow a verbal gift. **J** is for **J**aw, **J**ive and **J**abber.
 - **C**lutch and **C**arry moveable items. They are useful or valuable or both. **C** is for **C**law, **C**lutch and **C**arry.
- NOTE:** Be sure to save your game often, especially after collecting items, examining rooms, talking to people, and succeeding at any difficult task.

WHAT'S IN THE BAG?

Flicker stashes items in his Bag. If he can pick something up and get it into his Bag, it's bound to be useful. (Non-useful items blow Flicker off with discouraging comments.)

Flicker's Bag is bottomless. It holds a lot of baggage. So don't overlook anything you could store in it during your travels.

TO OPEN THE BAG:

- Press **▲**, or point at the Bag icon in the corner of the screen and press **X**.

TO SHUT THE BAG:

- Press **▲**, or point at Flicker's Face in the corner of the screen and press **X**.

TO PUT SOMETHING IN THE BAG:

Move the Claw over an item you want to pick up, and press **X**. Then do one of the following:

- Open the Bag, position the new item in it, and press **X**.
- After picking up the item, drag the item to the Bag icon and press **X**.
- When you pick up another item, it takes the place of the item you were holding. The previous item goes in the Bag automatically.

TO EXAMINE AN ITEM IN THE BAG:

- 1 Open the Bag.
- 2 Move the Eye to an item and press X. The item will provide information about itself.

TO TAKE SOMETHING OUT OF THE BAG:

- 1 Open the Bag.
- 2 Move the Claw over an item and press X.
- 3 Drag the item out of the Bag, and the Bag snaps shut. Or press ▲ to shut the Bag. Flicker is now holding the item.

CARRYING & USING ITEMS

After picking up an item, such as the candelabra, you carry it with you. (You can't see the item, but it's there.)

- 1 When you cycle through Flicker's Action Icons (default R1 or L1), the item appears in the cycle sequence.
- 2 Press X to use the item when it appears. Be sure to first move it to the spot where it will do the most good.
- 3 Put the item in Flicker's Bag to get it out of the sequence and tucked away until needed.

CONVERSING

Talking to people is one of the most important aids to figuring out what to do. Move the Jaw near or over the person you want to converse with, and press X.

Talk to everyone. Be sure to ask the right questions. Actually, ask all the questions you can to everybody in the kingdom. You might even ask the same questions over again in a different order.

During conversations, a question menu will sometimes appear, giving you a choice of questions to ask:

- 1 Press the **DIRECTIONAL BUTTONS** up/down to select the question you want to ask.
- 2 Press X to ask the question.

Keep in mind: the reason you ask questions is to get information, so remember what people say.

INVENTION BOOK

This important volume can save your aspirations. Study its illustrations for hints on assembling various items you collect. Use what you learn to create the solutions to some of Flicker's most puzzling conundrums.

TO USE THE INVENTION BOOK:

- 1 Open Flicker's Bag and Examine the Invention Book.
- 2 Turn the pages by pointing to the corners and pressing X.
- 3 Use the Eye icon to Examine specific parts of any invention, for helpful descriptions.
- 4 Point to Flicker's Face and press X to close the book.

CAMELHOT MAP

The Map is your complete guide to what's hot in the Kingdom and its vicinities: hunting, water sports, castles, mental hospitals, giants, and more . . . much more! It's all here! AND the Map is your ONLY guide to the locations of all the Knights of the Square Table.

Just pick a spot on the Map, and you're there! Instantly. And there's a Map

Bonus: more adventure-packed spots open to you as you progress!

TO USE THE CAMELHOT MAP:

- 1 Open Flicker's Bag and Examine the Camelhot Map.
- 2 Move the Foot to wherever you want to go and press X.
- 3 Your scaly rump is instantly transported to your destination.

NOTE

Sometimes leaving a scene returns you to the Map automatically.

ARCADE SEQUENCES

During Flicker's quest, he'll be called upon to compete in four different challenging arcade-type games, each with unique controls.

Each sequence takes practice and skill to win, and Flicker **MUST** win before he can progress. Between attempts, you can always go off and do some questing elsewhere, and return later to try again.

NOTE

Be sure to save your game before attempting the arcade games.
ALWAYS save after winning one.

CAT-A-PULT

Using siege-craft and a willing tabby, try for a bull's-eye on 9 out of 10 knightly mugs. Cycle to the Claw icon to start.

CONTROLS

Move Cat-a-Pult **Directional buttons** left/right

HINTS

If only Flicker could win the tournament and marry the Princess. That is, if only Flicker could first, become a knight, next, enter the tournament, then, win it and marry the Princess. That is, if he could initially finish the dishes, then, work as a Squire and unmask the Black Dragon, in the meantime save the Knights, rescue Flame, become a Knight, enter the tournament, almost lose it, win it and, finally, marry the Princess!

CASTLE KP: Before Flicker can pursue his quest for knighthood and the hand (or claw, as the case may be) of his lady love, he must wash a palace-size pile of dirty dishes. Flicker's an inventor. Read the Book!

INFO LADY: Ask the Info Lady for help. She has an important clue for almost every major puzzle.

FLAME'S ROOM: Say goodbye to Flame before leaving the Castle. Preserve her kiss, and later give someone a toadal makeover.

SAVE THE KNIGHTS: If Flicker is going to succeed at dragging his tail up the royal ladder, he's going to have to do some knightly networking. This means sucking up . . . er, ah, *helping out* the big Sirs of the Square Table. Sirs Burnevere, Blaze, Gasflame and Loungealot have all forged ahead heroically, straight into deep dragon doo-doo. If the truth be known, all four of these royal warriors are burdened with serious shortcomings. Flicker must save each one and gain favor with all who sit at the Square Table. The whole dragonly plan is to get hired on as a squire by a grateful Knight.

HOME FOR THE GRIMLY INSANE: Sir Burnevere is pulling rubber room time. Distract babbling Dr. Fraud so Sir Burnevere can escape.

THE ENCHANTED POOL: Sir Blaze has fallen hopelessly in love as he gazes at his own reflection in the pool. Break the spell quick before he goes on his honeymoon.

The fly-munching madman is the knight's only hop.

BEHIND THE CASTLE: Sir Gasflame the Myopic is committing a feudal faux pas by attacking his own liege. Save him from a bad career move. The seeds of Gasflame's enlightenment could be in the bag.

ON THE HILL: Quarrelsome Loungealot is ready to clash in mortal combat with the ominous Black Dragon. But the Dark Defender is a no-show. Loungealot's salvation is the cat's meow.

GUIDO'S PIZZA STAND: Pull off a feather heist to tickle the chef's fancy.

ENTRANCE TO TOURNAMENT GROUNDS: The sign handler is your stop 'n drop source for questing necessities. Don't chew on this puzzle too long.

SAVE THE LADY OF THE LAKE: The lady has taken a shock. Give the boatman the same.

FLAME'S ESCAPE: Flame's hand (plus the rest of her) is in jeopardy. Assist her get-away. A punked-out fair lady provides the *modus escapibus*.

TRAPPED IN THE CASTLE: The solution is a real drag, involving a tricked and tranced Trivet. The word now as always, girls, is: Accessorize!

SAVE THE DODO: Get eco-aware. Stop the hunter from stalking the rare bird. A little strategic graffiti will confuse the local constabulary.

IN THE JUICE BAR: Waiter! What's the juice du jour?

INFILTRATING CASTLE GRIM: At the moat, you need a specialty food item. Give Sir George the gift of roughage. A stinking disguise of the very despised is in order.

SAVING THE DAMSEL DRAGON: Fool the local sorcerer out of his numbers.
