# RULES FOR WINNING AND LOSING

You will win in any of the following cases:

**KO:** Deplete your opponent's energy.

**Ring Out:** Throw opponent into the DANGER ZONE.

**Time Out:** Exceed the designated time with a higher energy level than your opponent's.

## DRAW and SUDDEN DEATH

In the case of a Time Out, if you and your opponent's energy levels are equal the battle will end in a tie. This rule also applies on Double KO and Double Ring Out.

If both fighters win an equal number of matches a 'Sudden Death Match' will determine the winner. In Sudden Death your energy level will be lower than normal. If the Sudden Death match ends in a tie, the champion will be declared the winner.

## CONTINUE

Even you lose a battle, you can try again by continuing. However, you must press the Start button within designated time. You can also change your character.

## SCREEN: Type 1

**TIME:** When the counter shows 0, your time is up. The fighter with the higher energy level will be the winner.

**SET COUNT:** This shows how many rounds you must fight to win. When you win a set one dot will be highlighted. When you win the entire match all dots will be highlighted.

**ENERGY GAUGE:** You will lose if your energy falls to 0.

## SCREEN: Type 2

**COM TYPE:** shows what Move Type the character has.

**DAMAGE GAUGE:** shows how much damage you inflicted upon your COM opponent.

**MAXIMUM DAMAGE:** shows the greatest damage you inflicted upon your COM opponent.

## TIPS TO HELP YOU THROUGH BATTLE

Understanding the Hold System and DANGER ZONE System is essential for victory. Players can fight by skillfully managing only three moves: PUNCH, THROW, and HOLD. Punch is superior to throw, throw is superior to hold and hold is superior to punch.

**HOLD SYSTEM:** Usually fighting games have only two basic types of attack: Punch and Throw. In Dead or Alive, you have an additional category called HOLD.

There are two kinds of Holds; a Offensive Hold (OH) and a Defensive Hold (DH).

### OFFENSIVE HOLD

This is best to use when you want to aggressively attack the opponent. The main command key is **[X]**. Depending upon which skill you use, the command will differ. (For details see the character moves lists.)

### DEFENSIVE HOLD

Use this when the opponent aggressively attacks you. By pressing **[X]** button, you can hold your opponent's arm or leg and turn his attack against himself with a throw. All characters share the following commands. Defend against high/mid attacks with the **[X]** button and against low crouching attacks with the **[Y]** button. *Some characters have additional Defensive Holds moves.*

## DANGER-ZONE-SYSTEM

The DANGER ZONE is the rim of the fighting ring. A character falling into this Zone will create an explosion which causing him/her massive damage. The character will also be bounced around in the explosion. This is when your opponent is vulnerable, so strike quickly. (Mid-air combos work well.)

If you're thrown into the DANGER ZONE you can avoid bouncing by pressing **[X]+[Y]+[Z]** buttons simultaneously before the explosion begins. This will put you into the Ukemi position. Even if you are able to avoid bouncing with this maneuver, you will still incur damage from the Danger Zone, but you will avoid damage from the explosion.

### DANGER ZONE MODE

The entire ring becomes a DANGER ZONE. To select DANGER ZONE MODE Press the directional buttons **[Left/Right]** when you select your character and start the game. In Sudden Death battles the game will automatically enter DANGER ZONE MODE.

Ryu bears a name "Hayabusa" an honor bestowed upon only the most distinguished of Ninja's coming from the Hayabusa School. His life had been a continuous fight until he met his love, Aileen, and found satisfaction in peace. But his thirst for challenge returned when he learned that his best friend's sister, Kasumi, had disappeared.

The invitation in his hand beckoned and winked like an old lover. Another seduction from the dark. Once again, Ryu became a shadow of darkness.

# GEN FU

Nationality: Chinese

DOB: Jan 5.

Height/weight: 5'5" / 35 LB

Measurements: 37-40-38

Fighting Style: Shin-I Rokugo Ken

Occupation: Used bookstore Owner

Favorite food: Mabo Tofu

Hobby: Chinese painting

Gen Fu left his native China in 1976. He barely made his escape before his cohorts were caught and imprisoned under the misnomer "gang of Four."

No one knows the real reason Gen Fu recently came out of retirement. No one would guess about the dream that haunts Gen Fu nightly. Only his closest enemies suspect that something profound must have caused the old man to come out of his retirement. (Could it have anything to do with the tragedy surrounding his granddaughter Mei Linn?)

Gen Fu may appear to be just a feeble shop owner, but this master of Shin-I Rokugo Ken is no one to patronize... he never misses an opportunity to test his lethal acumen.
