THE GEXCAVE

MAP - Once you enter the game, GEX finds himself in the secret underground GEXCave. The hub of activity is Mission Control, the computerized brains overseeing GEX's undercover assignments.

The GEXCave is also infested with secret accesses. There are Level TVs, Bonus TVs, Boss TVs, the GEXVault and the Hub Doors. Use the Directional buttons to move GEX to any activated TV in the GEXCave.

Jump onto the green button in front of the TV to warp into its level.

NOTE - GEX must find Remotes (see pg. 9) to gain access to static-filled TVs.

LEVEL TVs - GEX enters the main levels through these TVs. On the lower left side of each TV is the number of Remotes required to enter the level. On the lower right side, you'll see the number of Remotes collected so far from the level.

BONUS TVs - It'll cost you to enter these TVs. First, GEX must collect Bonus Coins (pg. 14). The number needed to enter the Bonus Level is shown on the lower left side of each TV. Once in the Bonus game, you'll have a short time to complete a mini-mission. When you succeed, a Secret Code will appear on the lower right side of the TV. Write the code on your palm to use later when the GEXVault has been opened.

SECRET TVs - Four secret levels are hidden throughout the GEXCaves. Successfully complete all four to open the GEXVault.

GEXVault - In the main GEXCave is a secret GEXVault with four empty slots on the door. After GEX bags all four Vault collectibles from the Secret Levels, the GEXVault will open. Inside, you'll enter the Secret Codes won in the Bonus Levels.

LEVEL MISSION HINTS - When GEX enters a level, a list of missions appears. Use the Directional buttons to highlight the mission you want to attempt, and press the X button. A hint will be revealed on how to obtain the Remote (pg. 9) for that mission.

CUZ - GEX's cousin has been captured by Rez. Find and rescue him and have the chance to play as him in Secret Levels.

REX - GEX's prehistoric ancestor might need a little thawing out. Find and save him to play as him in Secret Levels.

ALFRED - GEX's trusty turtle servant appears at odd moments, always right when GEX needs him. Tail Whip Alfred and he'll spill what he knows about a nearby puzzle.

TV REMOTES

Obtain TV Remotes by completing missions and finding concealed exits in each level. Remotes give GEX access to even more levels in the GEXCave.

NOTE - Press **START** to see your current Collectible and Remote count on the Pause screen.
