DIVE FORWARD

GENERAL HINTS:

- Wait for a receiver to get open before passing to him.
- On Defense, use the **Change Player** button, then press the **Tackle** button to knock down the receiver just as he catches the ball to cause a bobble.
- Press **Change Player** button to Control nearest Defender
- Hold the **Turbo** button to run faster up field
- **QB Jump Pass** - Run away from blitzing defenders, then press Turbo + Jump. While you're in the air, choose a receiver and press the Pass button. You'll avoid QB sacks with this tactic.
- **Turbo button Usage** - Use the Turbo button to make your player run faster, jump higher and hit harder. Hard hits will cause the ball carrier to fumble more often. Use your turbo wisely.
- **Spin Move** - Quickly tap the Turbo button twisce to perform a spin move. Spin moves cause defenders to miss tackles. Of course, you must have some Turbo available to perform this move.
- **Stiff Arm** - While carrying the ball beyond the line of scrimmage, hold down Turbo then press the Pass button. This will knock down a would-be tackler.
